

## RESOURCE PERSONS

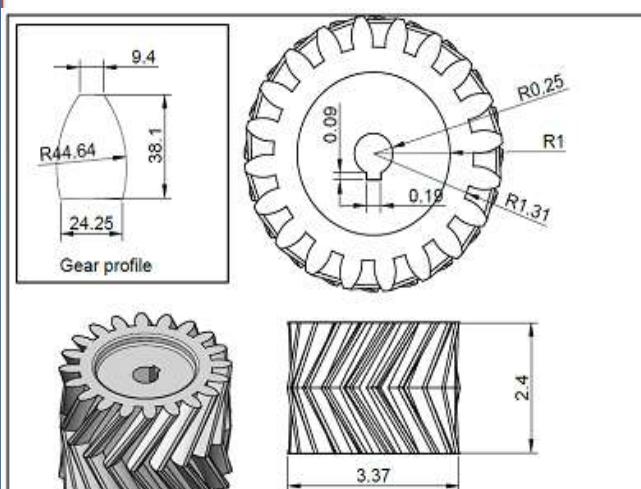

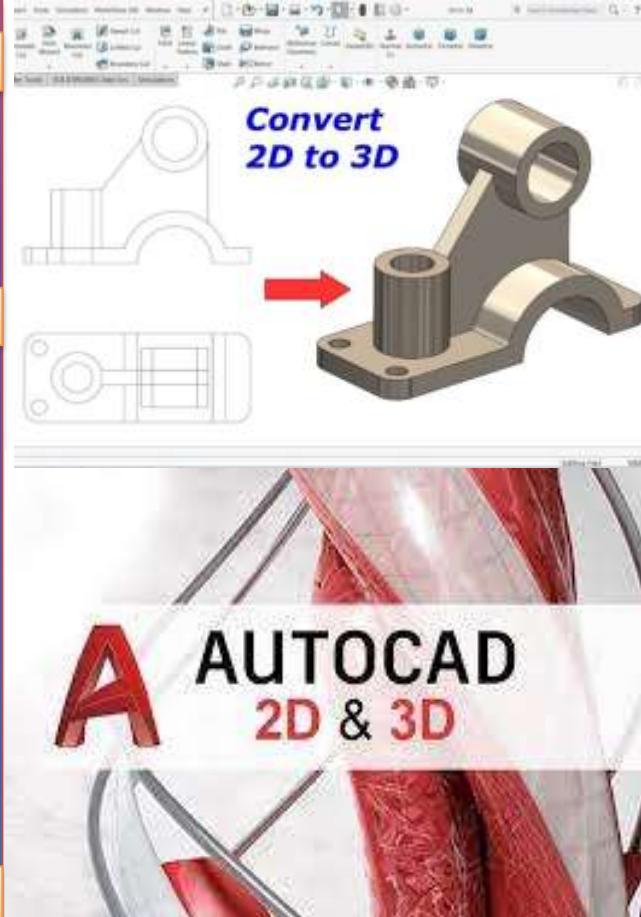

The resource persons Mr. S. J. Shinde, Assistant Professor from SVERI's College of Engineering, Pandharpur.

## MAJOR TOPICS

- Importance of AutoCAD software.
- Basics Introduction of AutoCAD and its Interfaces, Part Design, Assembly, Drafting, Sketcher, 2D & 3D Drawings tools.
- AutoCAD - Usage in Academics and Industries.
- Formulation of undergraduate/ post graduate and consultancy projects using the software.

## ABOUT THE PROGRAM

This training programme on "AutoCAD 2D & 3D Drawings for Design and Drafting" is being organized by SVERI's College of Engineering, Pandharpur. with an objective to provide a golden opportunity to students to learn about AutoCAD software and its various application in the field of academics, research & industry.

## ABOUT COURSE:

❖ Python is a high-level, object-oriented programming language that has recently been picked up by a lot of students as well as professionals due to its versatility, dynamic nature, robustness, and also because it is easy to learn. Not only this, it is now the second most loved and preferred language after JavaScript and can be used in almost all technical fields, be it machine learning, data science, web development, analytics, automation, testing, artificial intelligence, and a lot more.

❖ The purpose of “Advanced Programming Concepts in Python” is to achieve the Programming can enable you to work much faster and come up with more creative solutions than others who do not know how to program.

### Training on Advanced C++ Programming

Recent years have witnessed a great deal of interest from both academia and industry in the field of antenna. In fact, this research topic tops the pyramid of research priorities requested by many national research agencies. So our department is providing the services for those researchers who are working in this field. Department is having Microwave Engineering Laboratory with well-equipped facilities. This is a good opportunity for researchers who are working on antenna to take benefit of this lab.

## About the Department

The Department of Civil Engineering was established in 2008. The Department offers UG (Intake-120), PG (Intake-18), and PhD Programmes. The UG program has been accredited by NBA three times. Currently, NBA accreditation is extended up to 2023. The Department has well qualified & dedicated faculty members. Civil Engineering Department is known for its high academic standard, well-maintained discipline & excellent infrastructure facilities along with the state-of-the-art laboratories. In addition to this, there are research laboratories like Concrete Technology, Geotechnical, Non Destructive Testing, fluid Mechanics along with CAD/STAAD/ETabs Software.

## About Course

AutoCAD is a computer-aided design software developed by the company Autodesk (hence the name AutoCAD). It allows you to draw and edit digital 2D and 3D designs more quickly and easily than you could by hand. The files can also be easily saved and stored in the cloud, so they be accessed anywhere at any time.

### WHAT IS STAAD.PRO?

STAAD is a popular structural analysis application known for analysis, diverse applications of use, interoperability, and time-saving capabilities. STAAD helps structural engineers perform 3D structural analysis and design for both steel and concrete structures.

A physical model created in the structural design software can be transformed into an analytical model for structural analysis. Many design code standards are incorporated into STAAD to make sure that the structural design complies with local regulations.
