### Introduction to Holistic Management of Temple Catering to Floating Population

India is a spiritual country where different tributaries are having their temples in and around the community. India is a land of temples. From the hilly areas of Himalayas to the mountains of Ladakh to the forgotten villages of Tamil Nadu to the caves of Maharashtra and deserts of Rajasthan - Temples are everywhere. Worship takes a multitude of forms depending on community groups, geography and language. There is a flavor of loving and being in love with whatever object or focus of devotion. Worship is not confined to any place of worship; it also incorporates personal reflection, art forms and group. The temple is the focus for all aspects of everyday life in the Hindu community - religious, cultural, educational and social. The temple is also the place where one can transcend the world of man. Every Devotees use to visit temple on different days and they use pooja items like coconuts, flowers, fruits, Betel leaves etc. for making please to god and goddesses. Day by day the numbers of such people has increased and intern a huge quantity of such waste is generated from the temple. This entire process becomes a cause of environmental pollution in and around the temple. Cleanliness is one of the four pillars of spiritual life (the other three are mercy, austerity and truthfulness). So it's time to make aware to people (Devotees) about these problems and intern control the problems. This event ultimately will help to create awareness among the Devotees.

## SVERI's College of Engineering, Pandharpur

### About the College

Pandharpur is well known holy place where Lord Shri Vithal Temple is located on bank of the river Chandrabhaga. It is recognized as spiritual capital of Maharashtra and popularly known as "South Kashi" of India. Shri Vithal Education and Research Institute (SVERI), a Charitable trust formed by devoted technocrats, established its first Project, the SVERI's College of Engineering, Pandharpur in 1998, which is approved by AICTE, New Delhi. It has been affiliated to Solapur University, Solapur. The Engineering College is ISO 9001:2000 certified institute, is accredited by "NBA", New Delhi and NAAC.

### About the Department

The Department of Civil Engineering of the SVERI's was established in the year 2008. The department has developing the links with the building and construction industry and academic and research. The department has 20 Qualified and Dedicated Faculty Members with the specialization with various areas. Department of Civil has UG (Intake-60), PG (Intake -18) and Ph.D. programs.
