3. We visited Web Ruchi Solutions on 28th May 2022 at 11 am.
4. On 29th May 2022 morning we visited Birla Science Museum.
5. We visited ISRO NRSC Hyderabad on 30th May 2022 at 10 am. Students were divided in four groups. And visited laboratories one by one. ISRO had given us presentation on recent trends and started their session at 11:30 am. The activity continued upto 4pm on same day and had started return journey on same day.

The students got benefited in terms of the technical details provided by the company on an important part of Web design development and launching the site. And after visiting research labs, students got information about ISRO's ongoing project activities in the field of computer science.

They conducted seminar session which covered the following details:-

The presentation session was conducted by:

1. Dr. T.S.Prasad
2. Mr. Y.Suresh (Birla Science Museum)
3. Mr. Ranjan Raja (Web Ruchi Solutions)

Company Profile:

1) ISRO:

India decided to go to space when Indian National Committee for Space Research (INCOSPAR) was set up by the Government of India in 1962. With the visionary Dr Vikram Sarabhai at its helm, INCOSPAR set up the Thumba Equatorial Rocket Launching Station (TERLS) in Thiruvananthapuram for upper atmospheric research. Indian Space Research Organisation, formed in 1969, superseded the erstwhile INCOSPAR. Vikram Sarabhai, having identified the role and importance of space technology in a Nation's development, provided ISRO the necessary direction to function as an agent of development. ISRO then embarked on its mission to provide the Nation space based services and to develop the technologies to achieve the same independently. Throughout the years, ISRO has upheld its mission of bringing space to the service of the common man, to the service of the Nation. In the process, it has become one of the six largest space agencies in the world. ISRO maintains one of the largest fleet of communication satellites (INSAT) and remote sensing (IRS) satellites, that cater to the ever growing demand for fast and reliable communication and earth observation respectively. ISRO develops and delivers application specific satellite products and tools to the Nation: broadcasts, communications, weather forecasts, disaster management tools, Geographic Information Systems, cartography, navigation, telemedicine, dedicated distance education satellites being some of them. To achieve complete self reliance in terms of these applications, it was essential to develop cost efficient and reliable launch systems, which took shape in the form of the Polar Satellite Launch Vehicle (PSLV). The famed PSLV went on to become a favoured carrier for satellites of various countries due to its reliability and cost efficiency, promoting unprecedented international collaboration. The Geosynchronous Satellite Launch Vehicle (GSLV) was developed keeping in mind the heavier and more demanding Geosynchronous communication satellites.

Apart from technological capability, ISRO has also contributed to science and science education in the country. Various dedicated research centres and autonomous institutions for remote sensing, astronomy and astrophysics, atmospheric sciences and space sciences in general function under the aegis of Department of Space. ISRO's own Lunar and interplanetary missions along with other scientific projects encourage and promote science education, apart from providing valuable data to the scientific community which in turn enriches science.

Future readiness is the key to maintaining an edge in technology and ISRO endeavours to optimise and enhance its technologies as the needs and ambitions of the country evolve. Thus, ISRO is moving forward with the development of heavy lift launchers, human spaceflight projects, reusable launch vehicles, semi-cryogenic engines, single and two stage to orbit (SSTO and TSTO) vehicles, development and use of composite materials for space applications etc.

2) Birla Science Museum

Known for transferring scientific knowledge among everyone, Birla Science Museum has been educating people for many years now. The best part about this science museum is the fact that this dissemination of information is done in an interactive way. Second phase of B.M. Birla Science Centre this museum was opened in 1990. Nothing less than a heaven for those with special interest in science, this museum makes learning a fun-filled process.

Birla Science Museum has various sections, each section presenting an amazing set of exhibits, each dedicated to a specialised field. These are Interactive Science Section, Archaeology and dolls museum, Nobel Gallery, Antarctica Diorama, NRSA, Dvaraka Diorama, IEEE and Dinosaurium.

Interactive Science Centre is one of the many sections where exhibits are designed on the basis of various Physics laws, mechanics, perception, vibration and sounds, energy and motors, electricity and magnetism and intriguing concepts of optical illusions and many other concepts. Mix Colors, Arch Bridge, Lift Yourself Up, Action-Reaction, The Magic Ball, Pedal Power and See Sounds are a few of the exhibits at the interaction Science section. If interested, you can also plan your visit to the Birla Planetarium Hyderabad. Many other sightseeing places are located near to this place, once such place is the Birla Mandir Hyderabad.

Another popular section of Birla science museum Hyderabad is the Archaeology and Dolls Museum, which displays a range of excavated materials from pre, early historic and Megalithic Periods along with various manuscripts including palm leaf manuscripts, carvings, paintings, temple wares, etc. All the materials are the result of three meticulously carried out excavations by the Birla Archaeological & Cultural Research Institute (BACRI).

Another Section, Dinosaurium, is something to look forward to too. It boasts of a rare collection including fossils of the Dinosaur, Kotasaurus, which dates back to almost 160 million years. These fossils were excavated from Yamanpalli in the Adilabad district.

For those interested in electronics, there is an electronic section which explores the fascinating world of scientific developments. Its most attractive feature is a harp which plays a note automatically as soon as a visitor puts his or her hand over it. It has sensors on strings. Holograms displaying varied images of plants, faces and drawings also captivate visitors at Birla Science Museum.

Student Feedback

We had the most amazing visits which gave us real technical and research insight. We got the knowledge about working of a software company. Also we learnt about research activities which have given exposure to different project ideas that will help us to decide final year projects. It helped us to explore our skills and was truly enlightening.

These visit gave exposure about opportunities in Software industry and how exactly these industries work. It also inspired the students to be an entrepreneur and be updated about the new technologies which will help them in preparing for starting their own start-ups. These types of visits should be carried out for the students regularly so that the students get exact exposure about the working and requirements of the industries which is expected from the students at the time of placement and after the session.

Subject: Regarding Industrial Visit to Your Organisation.

Dear Sir/Madam,

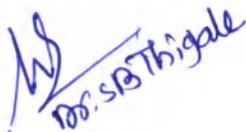

Our Institute, SVERI's College of Engineering, affiliated to Punyashlok Ahilyadevi Holkar Solapur University, Solapur, Maharashtra, offers Degree courses in Computer Science and Engineering, Electronics and telecommunication, Mechanical Engineering, Civil Engineering and Electrical Engineering. As a part of curriculum the students of Third Year Computer Science Engineering are required to undertake an Industrial Visit.

We would like to send 108 students accompanied by 4 staff members to visit your esteemed organization on 30/05/2022.

We ensure that our students will follow the rules and regulations of your organisation.

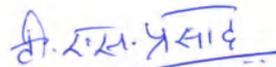

Kindly give us permission so that we can go for train reservation and hotel booking.

Thanking You

Dear Sir/Madam,

This is us expressing our heartfelt gratitude towards you for giving us permission to visit your organisation.

It was very valuable and useful experience for our students. This visit has helped our students to get knowledge which they cannot gain in classrooms as well as helped them to make connections between the different aspects of educational experience.

Thank You for your cooperation.

Thanking You.

Company Profile:

1) ISRO:

U R Rao Satellite Centre (URSC), Bengaluru, formerly known as ISRO Satellite Centre (ISAC) is the lead center for building satellites and developing associated satellite technologies. These spacecrafts are used for providing applications to various users in the area of Communication, Navigation, Meteorology, Remote Sensing, Space Science and interplanetary explorations. The Centre is also pursuing advanced technologies for future missions. URSC is housed with the state-of-the-art facilities for building satellites on end-to-end basis. ISRO Satellite Integration and Test Establishment (ISITE) is equipped with state-of-the-art clean room facilities for spacecraft integration and test facilities including a 6.5 Meter thermos vacuum chamber, 29 Ton vibration facility, Compact Antenna Test Facility and acoustic test facility under one roof. Assembly, Integration and Testing of all Communication and Navigation Spacecraft is carried out at ISITE. A dedicated facility for the productionisation of standardized subsystems is established at ISITE.

URSC has a unit called Laboratory for Electro Optics System (LEOS), which is situated in Pena, Bengaluru and is mainly responsible for research, development and productionisation of Sensors for ISRO programmers.

Since inception, URSC has the distinction of building more than 100 satellites for various applications like scientific, communication, Navigation and remote sensing. Many private and public sector industries are also supporting ISAC in realizing standard satellite hardware.

2) HAL

Hindustan Aeronautics Limited (HAL) Heritage Centre & Aerospace Museum, Bangalore, the first of its kind in India established in 2001, is situated at the intersection of HAL Old Airport Road & Basavanagar Road. It is about 17 Kms from the Bengaluru City Railway Station. The Heritage Centre & Aerospace Museum is sprawled over 4 acres of lush green land.

There are two major halls, one displaying the photographs that chart the growth of aviation in each decade from 1940 till date and a Hall of Fame that takes the visitors on an exciting journey through the Heritage of Aerospace & Aviation Industry in India.

The second Hall highlights the various functions of an Aero Engine by displaying motorized cross sections of various models of Aero Engines. Real Engines such as Garret (for Dornier Aircraft), Adour (for Jaguar Aircraft) and Orpheus (for Kiran Aircraft) can be seen here along with Ejection Seat with Parachute; and Pushpak & Basant Aircraft.

For the academically inclined, a Library on Aerospace provides opportunity to trace the exciting development of the industry since the 1940s. While the Museums' prized possessions include various types of Aircraft models on static display, the availability of Audio-Video facility and display of transslides enhances the experience immeasurably. Taking ones experience a notch above are the true-motion simulators that puts oneself in the pilot's seat, offering a thrilling ride. It is where visitors of all ages can explore and imagine what it would be like to soar through the skies and have realistic feel of flying fighter jets & commercial aircraft.

The Museum has an excellently landscaped exterior with an exclusive Rose Garden, Orchidarium and Herbal Garden with a number of exotic varieties. A children's play area provides kids endless hours of fun. A sustainability park displays working models of solar power systems, biogas plant and hybrid windmills to educate visitors and students on alternate energy sources which help conserve natural resources and preserve the environment.

3) Visvesvaraya Museum

Engine Hall exhibits engines of various cars, machines used in industry, a jet aircraft engine, and other mechanical devices.

Through engaging exhibitions, the How Things Work gallery aims to illustrate how machines operate. The pulley system, gears, various motion-transfer mechanisms, levers, inclined planes, and screws that reduce effort are all included as exhibits. The use of these straightforward devices in everyday life is covered in a separate section.

The Fun Science gallery that displays exhibits on the science of sound, optics, fluids, math and perception.

The Electro Technic Gallery contains interactive electrical exhibits which work on the basic principles of electricity, electronics and communication. A renovated version of the Electro Technic gallery was opened to public on 8 April 2010. This gallery exhibits the classical experiments like Oersted's experiment, Barlow's wheel, and Faraday's ring. A demonstration on electrostatics, which includes a Tesla coil and a Van de Graaff generator is on display.

The Space – Emerging Technology in the Service of Mankind gallery showcases the achievements of the Indian Space Program. It was inaugurated on 19 June 1999. The Gallery was renovated with guidance of Indian Space Research Organization and reopened as Space Technology on 28 November 2017 by A. S. Kiran Kumar and Krishnaswamy Kasturirangan. It is the first Science Gallery in India dedicated to Space and Space Technology.

The Biotechnological Revolution Hall has exhibits on the basics of biotechnology and its applications, including human genome sequencing. It opened on 4 January 2003. This exhibition has been renovated with new interactive exhibits and displays. This new-look exhibition was opened to public as 'Biotechnology' Gallery on 15 February 2021.

The BEL Hall of Electronics was inaugurated on 29 June 2004 in collaboration with Bharat Electronics Ltd (BEL). This gallery has exhibits on the basic principles of electronics and information technology.

The 'Science for Kids' gallery was inaugurated on 19 April 2019. There are exhibits on Our Senses, about animals, colours, light, sound etc. apart from interactive toys. There is an exhibit where kids can take photos of themselves with life-size animal models. 'Mirror maze' is another attraction in this gallery.

The Wright Brothers exhibit, also added in 2014, includes a 1:1 scale model of the Wright Brothers' Flyer, fabricated in-house, and a flight simulator.

4) TechaSoft Pvt. Ltd.

5) LeePra Technologies, Pvt. Ltd.

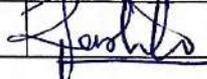

LeePra Technologies Private Limited is a budding EMS Company founded on June 30, 2014, with two employees.

The idea of LeePra Technologies comes from the fact that the worldwide market is a determining force in digitalization through the production of electronic products and now accounts for almost 30-40 percent of all assemblies; wherein the real benefits to society comes through continuous technology development in various infrastructure and demand for newer / smarter products and services. This gives us an opportunity to forge a world-class manufacturing set-up which can provide complete manufacturing & turnkey solutions under one roof to support leading OEM's operating in the field of Industrial, Automotive, Healthcare and Railways.

Thanking You.

Student Feedback

We had the most amazing visits which gave us real technical and research insight. We got the knowledge about working of a software company. Also, we learnt about research activities which have given exposure to different project ideas that will help us to decide final year projects. It helped us to explore our skills and was truly enlightening.

These visits gave exposure about opportunities in Software industry and how exactly these industries work. It also inspired the students to be an entrepreneur and be updated about the new technologies which will help them in preparing for starting their own start-ups. These types of visits should be carried out for the students regularly so that the students get exact exposure about the working and requirements of the industries which is expected from the students at the time of placement and after the session.

Respected sir /Madam

Yes, your students and faculty can visit the factory on Monday to Saturday 10.30 to 5pm.

Contact Naresh 8179409843

Your students are welcome to visit on any working day. March-14th 2023, Working hours 10-5pm

IMPORTANT:

Some of Your best students are recommended to prepare for the visit as below

a. visit www.kwalityphotonics.com www.ledchipindus.com to know our products.

b. Search Google for **LED packaging process** (to understand what we do at Kwality Photonics)

c. Search google for **LED constant current drivers**. Dimmable drivers, IOT lighting, Driverless AC (to help choose your project work in the field of power electronics design)

d. Any two students interested in such project may be named to talk to our MD.

For Visit Contact : Naresh 8179409843

Subject: Invitation as the Resource Person for a Expert Session on “ **Microsoft Cloud Computing Foundations Fundamentals Workshop** ”

Respected Madam,

Shri Vithal Education and Research Institute (SVERI) is a charitable trust founded in Pandharpur (known as ‘South Kashi’ of India) by a group of technocrats. Today, around 4800 students are studying in this campus and around 1800 boys and 1500 girls are living in the separate hostels. The institute is moving ahead on the path of success with Excellent Academic Results, Excellent Placements, Excellent R & D, Excellent Infrastructure and Excellent Accreditations. After the establishment of the institution, various colleges have been started by this trust.

- 1. SVERI's College of Engineering (UG & PG), Pandharpur** (Year:1998)
(NAAC A+ with 3.46/4.00 CGPA and All eligible UG Programs have been accredited by NBA)
- 2. SVERI's College of Pharmacy (UG, PG & Diploma), Pandharpur** (Year: 2006)
(UG Program accredited by NBA)
- 3. SVERI's College of Pharmacy (Poly.), Pandharpur** (Year: 2006)
(Procedure for NBA is in progress)
- 4. SVERI's College of Engineering (Poly.), Pandharpur** (Year: 2008)
(All eligible programs have been accredited by NBA)

Sir, since inception, SVERI has been working for the betterment of society. The Rural Human Resource Development Facility (RHRDF) has been established at SVERI through MoU with Bhabha Atomic Research Center, Mumbai for deployment of the technologies of BARC in rural area. Around Rs. 2 Cr. CSR grant has been received from NPCIL, Tarapur for empowering villagers in Tarapur (Mumbai) region through propagation of BARC technologies. In addition, Rs. 5 Cr. grant has been approved by NITI Aayog for establishment of Atal Community Innovation Center (ACIC), in 2022. Recently, RGSTC has sanctioned research fund of Rs. 33.73 Cr. for the collaborative project of IIT Mumbai, VJTI, Mumbai and SVERI, Pandharpur on Drone Technology. The institute provides ‘Earn & Learn’ scheme to the needy students for bringing them in the flow of education by sparing budget around Rs. 1 Cr. every year and making expenditure accordingly.

Subject: Thanks Letter

Respected Madam,

This is to express our sincere gratitude towards you for guiding our students on "Microsoft Cloud Computing Foundations Fundamentals Workshop" on Friday, 07th Oct. 2023 and Saturday, 08th Oct 2023 of our Third year Electronics and Telecommunication Engineering Department students in the campus of the institute. Your valuable thoughts will always keep our students inspiring and motivated.

This talk helped our students for linking to their CO/curriculum Gap: G3: Advances in Network Communication. This talk also helped to meet our "PO4: Conduct Investigations of Complex Problems, PSO3: Use the techniques, skills and modern software tools necessary for ENTC" Programme Outcomes/ Programme Specific Outcomes.

I request the same kind of cooperation in future also.

Thanking you,

Yours faithfully,

(Dr. Mrs. M.M. Pawar)

Subject: Invitation as the Resource Person for a Expert Session on "BJT Modeling"

Respected Sir,

Shri Vithal Education and Research Institute (SVERI) is a charitable trust founded in Pandharpur (known as 'South Kashi' of India) by a group of technocrats. Today, around 4800 students are studying in this campus and around 1800 boys and 1500 girls are living in the separate hostels. The institute is moving ahead on the path of success with Excellent Academic Results, Excellent Placements, Excellent R & D, Excellent Infrastructure and Excellent Accreditations. After the establishment of the institution, various colleges have been started by this trust.

- 1. SVERI's College of Engineering (UG & PG), Pandharpur (Year:1998)**
(NAAC A+ with 3.46/4.00 CGPA and All eligible UG Programs have been accredited by NBA)
- 2. SVERI's College of Pharmacy (UG, PG & Diploma), Pandharpur (Year: 2006)**
(UG Program accredited by NBA)
- 3. SVERI's College of Pharmacy (Poly.), Pandharpur (Year: 2006)**
(Procedure for NBA is in progress)
- 4. SVERI's College of Engineering (Poly.), Pandharpur (Year: 2008)**
(All eligible programs have been accredited by NBA)

Sir, since inception, SVERI has been working for the betterment of society. The Rural Human Resource Development Facility (RHRDF) has been established at SVERI through MoU with Bhabha Atomic Research Center, Mumbai for deployment of the technologies of BARC in rural area. Around Rs. 2 Cr. CSR grant has been received from NPCIL, Tarapur for empowering villagers in Tarapur (Mumbai) region through propagation of BARC technologies. In addition, Rs. 5 Cr. grant has been approved by NITI Aayog for establishment of Atal Community Innovation Center (ACIC), in 2022. Recently, RGSTC has sanctioned research fund of Rs. 33.73 Cr. for the collaborative project of IIT Mumbai, VJTI, Mumbai and SVERI, Pandharpur on Drone Technology. The institute provides 'Earn & Learn' scheme to the needy students for bringing them in the flow of education by sparing budget around Rs. 1 Cr. every year and making expenditure accordingly.

Subject: Request for Releasing Vehicle Allowance

Respected sir,

As per our Institute's policy, we invited Dr. S N Kore from PVPIT Budhagaon, Sangli, on 4th and 5th October 2023. He conducted a session on "Combinational Circuit Design" and "BJT Modeling" for our Second Year Electronics and Telecommunication Engineering Department students. He travelled from Sangli to Pandharpur and back from Pandharpur to Sangli by his own vehicle.

Therefore, I humbly request you to release his vehicle allowance.

Thank you.

Subject: Invitation as the Resource Person for a Expert Session on "ARM Programming"

Respected Sir,

Shri Vithal Education and Research Institute (SVERI) is a charitable trust founded in Pandharpur (known as 'South Kashi' of India) by a group of technocrats. Today, around 4800 students are studying in this campus and around 1800 boys and 1500 girls are living in the separate hostels. The institute is moving ahead on the path of success with Excellent Academic Results, Excellent Placements, Excellent R & D, Excellent Infrastructure and Excellent Accreditations. After the establishment of the institution, various colleges have been started by this trust.

- 1. SVERI's College of Engineering (UG & PG), Pandharpur (Year:1998)**
(NAAC A+ with 3.46/4.00CGPA and All eligible UG Programs have been accredited by NBA)
- 2. SVERI's College of Pharmacy (UG, PG & Diploma), Pandharpur (Year: 2006)**
(UG Program accredited by NBA)
- 3. SVERI's College of Pharmacy (Poly.), Pandharpur (Year: 2006)**
(Procedure for NBA is in progress)
- 4. SVERI's College of Engineering (Poly.), Pandharpur (Year: 2008)**
(All eligible programs have been accredited by NBA)

Sir, since inception, SVERI has been working for the betterment of society. The Rural Human Resource Development Facility (RHRDF) has been established at SVERI through MoU with Bhabha Atomic Research Center, Mumbai for deployment of the technologies of BARC in rural area. Around Rs. 2 Cr. CSR grant has been received from NPCIL, Tarapur for empowering villagers in Tarapur (Mumbai) region through propagation of BARC technologies. In addition, Rs. 5 Cr. grant has been approved by NITIAayog for establishment of Atal Community Innovation Center (ACIC), in 2022. Recently, RGSTC has sanctioned research fund of Rs. 33.73 Cr. for the collaborative project of IIT Mumbai, VJTI, Mumbai and SVERI, Pandharpur on Drone Technology. The institute provides 'Earn & Learn' scheme to the needy students for bringing them in the flow of education by sparing budget around Rs. 1 Cr. every year and making expenditure accordingly.

We are pleased to invite you to take a session on "ARM Programming" on Friday 9th June 2023 for

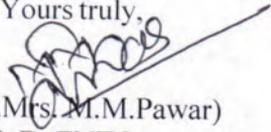

our Third year Electronics and Telecommunication Engineering Department students in the campus of the institute.

We believe that your presence and words of wisdom will take us (students, faculty members and all other stakeholders of this institute) to a different energy level which will help us achieve new heights of success in our future journey.

Sir, we are very much eager to welcome you in our campus. We are waiting for your positive response.

Thank you.

Yours truly,

(Prof. Mrs. M.M. Pawar)

Subject: Invitation as the Resource Person for a Expert Session on "Electronic System Design"

Respected Sir,

Shri Vithal Education and Research Institute (SVERI) is a charitable trust founded in Pandharpur (known as 'South Kashi' of India) by a group of technocrats. Today, around 4800 students are studying in this campus and around 1800 boys and 1500 girls are living in the separate hostels. The institute is moving ahead on the path of success with Excellent Academic Results, Excellent Placements, Excellent R & D, Excellent Infrastructure and Excellent Accreditations. After the establishment of the institution, various colleges have been started by this trust.

- 1. SVERI's College of Engineering (UG & PG), Pandharpur (Year: 1998)**
(NAAC A+ with 3.46/4.00 CGPA and All eligible UG Programs have been accredited by NBA)
- 2. SVERI's College of Pharmacy (UG, PG & Diploma), Pandharpur (Year: 2006)**
(UG Program accredited by NBA)
- 3. SVERI's College of Pharmacy (Poly.), Pandharpur (Year: 2006)**
(Procedure for NBA is in progress)
- 4. SVERI's College of Engineering (Poly.), Pandharpur (Year: 2008)**
(All eligible programs have been accredited by NBA)

Sir, since inception, SVERI has been working for the betterment of society. The Rural Human Resource Development Facility (RHRDF) has been established at SVERI through MoU with Bhabha Atomic Research Center, Mumbai for deployment of the technologies of BARC in rural area. Around Rs. 2 Cr. CSR grant has been received from NPCIL, Tarapur for empowering villagers in Tarapur (Mumbai) region through propagation of BARC technologies. In addition, Rs. 5 Cr. grant has been approved by NITI Aayog for establishment of Atal Community Innovation Center (ACIC), in 2022. Recently, RGSTC has sanctioned research fund of Rs. 33.73 Cr. for the collaborative project of IIT Mumbai, VJTI, Mumbai and SVERI, Pandharpur on Drone Technology. The institute provides 'Earn & Learn' scheme to

the needy students for bringing them in the flow of education by sparing budget around Rs. 1 Cr. every year and making expenditure accordingly.

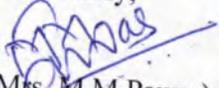

We are pleased to invite you to take a session on "Electronic System Design" on Tuesday 16th May 2023 for our Third year Electronics and Telecommunication Engineering Department students in the campus of the institute.

We believe that your presence and words of wisdom will take us (students, faculty members and all other stakeholders of this institute) to a different energy level which will help us achieve new heights of success in our future journey.

Sir, we are very much eager to welcome you in our campus. We are waiting for your positive response.

Thank you.

Yours truly,

(Prof. Mrs. M.M. Pawar)

Respected Sir,

This is to express our sincere gratitude towards you for guiding our students our TYBtech, LYBtech on 30/9/2022 the topic "6 Skills Needed by Construction Industry from Graduates". Your valuable thoughts will always keep our students inspiring and motivated.

This talk helped our TYBtech, LYBtech students for linking to their CO/curriculum Gap: G4: Practical Aspects of Construction Management, G5: Advanced Topics in Civil Engineering. This talk also helped to meet our "PO4: Conduct Investigations of Complex Problems, PO6: The Engineer and Society, PO11: Project management and finance, PSO3: Use the techniques, skills and modern software tools" Programme Outcomes/Programme Specific Outcomes.

I request the same kind of cooperation in future also.

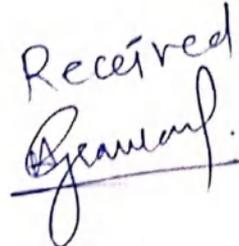

Thanking you,

Data Analyst

OBJECTIVE

To acquire advance knowledge in the field of Data Science, Machine Learning and Analytics by pursuing master's in data science.

EDUCATION

Bachelor of Engineering in Mechanical Engineering R. C. Patel Institute of Technology, Shirpur **July 2012 – May 2017**
Post Graduate Diploma in Advance Computing Center for Development of Advanced Computing, Mumbai **Sep 2021 – April 2022**

SKILLS:

Programming Languages : Python, Java SE, Java2EE, C, C++, Java Script, Data Structures.
Platforms and Tools : Tableau, PowerBI, Anaconda, SQL Server, ML Studio
Cloud Platforms : Amazon Web Services.
Libraries : TensorFlow, Numpy, Pandas, Keras
Database Technologies : PL/SQL, MySQL.

WORK EXPERIENCE:

E-emphasys, Pvt. Ltd., India **May 2022 - Present**
Software Engineer

- Part of analytics and Risk Intelligence Team, responsible to maintain and analyze the risks by future prediction using the statistical models and data mining algorithms.
- To investigate and troubleshoot various tools to optimize the working efficiency is one of the prime responsibilities of my profile.
- Automating the standard manual workflows for performance boost.
- In depth analysis of expansion strategies integrated with minimum man to man expense sheets.

Urban Matrix, India **Oct 2019 – Aug 2021**
Data Engineer and Data Scientist

- Predicted 3 months sales demands and areas with lead generating sources. Created an ensemble model using Logistic regression, Random Forest and LGBM. Accuracy was 71.33%
- Detailed data analysis, risk score calculation for predicting future on sale demands for the drones.
- Analyzed data of probable industries more likely to turn the heads from workers to drones.
- Built advanced model applications based on customer profiles with integration into business processes to achieve various business goals.
- Analyzed market data to define the nationwide sales/marketing and expansion strategy

Projects:

1. Client – Virinchi Hospital

Tools and Technology: Python, R, Tensorflow, Keras, Amazon Web Services, Machine Learning Algorithms and Deep Learning Techniques.

- Developed a platform called "DeepHealthCare Vision" for doctors who can monitor the radiology and pathology plus the symptoms of the patient.
- Deep Learning Techniques like Image processing, Object Detection, Open CV were used.
- Worked on Video Surveillance Analytics in Manufacturing Domain project from TATA STEEL PLANT Applying video analytic techniques on CCTV camera videos for intrusion detection.

2. Client - Mars Inc

Tools and Technology: Google Cloud Platform, Tableau, SQL SERVER, BigQuery, PowerBI, Alteryx,

- Working with team of developers designed, developed and implement a BI solution for Sales and Customers KPI.
- Developed and reviewed SQL queries with use of joins clauses in Tableau Desktop to validate static and dynamic data for data validation.
- Used Tableau Desktop for blending databases and creating different interactive views and dashboards

HTC Diesel Engines, India

June 2017 – February 2018

Assembly Supervisor

- Responsible to ensure smooth flow and manufacturing of the engines. All the assembly process should go under a specified precise protocol is ensured.
- Development of new systems, jigs, fixtures to increase productivity and implement zero defect system in the company. I was Involved in rectification of the complaints and feedback obtained from the customer which are analyzed, rectified, and is ensured that the problem will not occur in future depending on various applications.

ACADEMIC PROJECTS:

Deep Learning based Co-author Relationship Prediction

- Applied deep learning techniques for link prediction to search for potential collaborators for research work in a bibliographic network.
- Results from efficient DL model were noteworthy (**accuracy rate - 93%**) when compared with other algorithms like NeuralNetwork (70%), Random Forest (83%) and Support Vector Machine (85%).

Face Recognition Based Login Tool

- Structured and created login tool that supported face detection and recognition by utilizing **machine learning** models.
- PCA based feature extraction and recognition using neural network (back propagation).

BugScape

- Bug Tracking and Analytical Kit is an essential yet helpful tool. It has been designed and tested to mark the progress of development cycle. All the bugs, issues are recorded, assigned, and re-assigned to the respective teams. Developed on J2EE Springboot and React JS. The tool includes analysis of the recorded incidence.
-

CERTIFICATIONS:

- Certified Microsoft Power BI Data Analyst
 - Certified Amazon Web Services Solutions Architect
 - Diploma in Advanced Computing by CDAC, Mumbai
-

Awards and Achievements

- Received 'The Fresh Talent' award for improvement and timely delivery.
 - Got 'Kudos' award for first year performance.
 - Got 'Global' value award for my contribution in team.
 - Got SPOT awards for team valuable contributions for critical project.
 - Got appreciation from Client for support provided for projects.
-

Extracurricular activities

- Technical trainings conducted by me across 70 + engineering colleges in India.
 - Mentor for students at CDAC, Mumbai, Pune
 - Technical Lead and Project Lead at CDAC, Mumbai.
 - Mock Interviewer for placement preparation and career counselling students at CDAC across India.
 - Department Head (Designing and Power Train) of Team Assassins 2014-17

Data Analyst

OBJECTIVE

To acquire advance knowledge in the field of Data Science, Machine Learning and Analytics by pursuing master's in data science.

EDUCATION

Bachelor of Engineering in Mechanical Engineering R. C. Patel Institute of Technology, Shirpur July 2012 – May 2017
Post Graduate Diploma in Advance Computing Center for Development of Advanced Computing, Mumbai Sep 2021 – April 2022

SKILLS:

Programming Languages : Python, Java SE, Java2EE, C, C++, Java Script, Data Structures.
Platforms and Tools : Tableau, PowerBI, Anaconda, SQL Server, ML Studio
Cloud Platforms : Amazon Web Services.
Libraries : TensorFlow, Numpy, Pandas, Keras
Database Technologies : PL/SQL, MySQL.

WORK EXPERIENCE:

E-emphasys, Pvt. Ltd., India
Software Engineer

May 2022 - Present

- Part of analytics and Risk Intelligence Team, responsible to maintain and analyze the risks by future prediction using the statistical models and data mining algorithms.
- To investigate and troubleshoot various tools to optimize the working efficiency is one of the prime responsibilities of my profile.
- Automating the standard manual workflows for performance boost.
- In depth analysis of expansion strategies integrated with minimum man to man expense sheets.

Urban Matrix, India

Data Engineer and Data Scientist

Oct 2019 – Aug 2021

- Predicted 3 months sales demands and areas with lead generating sources. Created an ensemble model using Logistic regression, Random Forest and LGBM. Accuracy was 71.33%
- Detailed data analysis, risk score calculation for predicting future on sale demands for the drones.
- Analyzed data of probable industries more likely to turn the heads from workers to drones.
- Built advanced model applications based on customer profiles with integration into business processes to achieve various business goals.
- Analyzed market data to define the nationwide sales/marketing and expansion strategy

Projects:

1. Client – Virinchi Hospital

Tools and Technology: Python, R, Tensorflow, Keras, Amazon Web Services, Machine Learning Algorithms and Deep Learning Techniques.

- Developed a platform called "DeepHealthCare Vision" for doctors who can monitor the radiology and pathology plus the symptoms of the patient.
- Deep Learning Techniques like Image processing, Object Detection, Open CV were used.
- Worked on Video Surveillance Analytics in Manufacturing Domain project from TATA STEEL PLANT Applying video analytic techniques on CCTV camera videos for intrusion detection.

2. Client - Mars Inc

Tools and Technology: Google Cloud Platform, Tableau, SQL SERVER, BigQuery, PowerBI, Alteryx,

- Working with team of developers designed, developed and implement a BI solution for Sales and Customers KPI.
- Developed and reviewed SQL queries with use of joins clauses in Tableau Desktop to validate static and dynamic data for data validation.
- Used Tableau Desktop for blending databases and creating different interactive views and dashboards

HTC Diesel Engines, India

June 2017 – February 2018

Assembly Supervisor

- Responsible to ensure smooth flow and manufacturing of the engines. All the assembly process should go under a specified precise protocol is ensured.
- Development of new systems, jigs, fixtures to increase productivity and implement zero defect system in the company. I was involved in rectification of the complaints and feedback obtained from the customer which are analyzed, rectified, and is ensured that the problem will not occur in future depending on various applications.

ACADEMIC PROJECTS:

Deep Learning based Co-author Relationship Prediction

- Applied deep learning techniques for link prediction to search for potential collaborators for research work in a bibliographic network.
- Results from efficient DL model were noteworthy (**accuracy rate - 93%**) when compared with other algorithms like NeuralNetwork (70%), Random Forest (83%) and Support Vector Machine (85%).

Face Recognition Based Login Tool

- Structured and created login tool that supported face detection and recognition by utilizing **machine learning** models.
- PCA based feature extraction and recognition using neural network (back propagation).

BugScape

- Bug Tracking and Analytical Kit is an essential yet helpful tool. It has been designed and tested to mark the progress of development cycle. All the bugs, issues are recorded, assigned, and re-assigned to the respective teams. Developed on J2EE Springboot and React JS. The tool includes analysis of the recorded incidence.
-

CERTIFICATIONS:

- Certified Microsoft Power BI Data Analyst
 - Certified Amazon Web Services Solutions Architect
 - Diploma in Advanced Computing by CDAC, Mumbai
-

Awards and Achievements

- Received 'The Fresh Talent' award for improvement and timely delivery.
 - Got 'Kudos' award for first year performance.
 - Got 'Global' value award for my contribution in team.
 - Got SPOT awards for team valuable contributions for critical project.
 - Got appreciation from Client for support provided for projects.
-

Extracurricular activities

- Technical trainings conducted by me across 70 + engineering colleges in India.
 - Mentor for students at CDAC, Mumbai, Pune
 - Technical Lead and Project Lead at CDAC, Mumbai.
 - Mock Interviewer for placement preparation and career counselling students at CDAC across India.
 - Department Head (Designing and Power Train) of Team Assassins 2014-17

1] Energy Data Analytic platform. (Jan 2017 to 2020)

It is a software system which gathers the data from different type of meters and form meaningful information in the shape of Graphs, Tables, Trends and Historical analysis to identify the cause of any issue. It is designed to handle quantitative and qualitative data to provide users with an in-depth analysis and insight into your load systems enabling you with possibilities for optimization, energy savings, and building efficiency in their load networks.

Role:

1. Developed complete end to end Big-data processing in Spark, Kafka.
2. Written Multi Threaded socket based connector using java for loading data in system.
3. Written MQTT-Kafka Connector for loading IOT device data.
4. Written Kafka Streaming using java for saving state of data and transforming data to required formate.
5. Written streaming application for kafka spark integration application for processing data.
6. Written Rest API for Cassandra database and Spark application for third parties.
7. Handled Cassandra database cluster configuration and up-gradation to latest version.
8. Involved in complete end to end code deployment process in Production.

Development Environment:

Operating Systems: Ubuntu

IDE used: Intelij

Technologies used: Spark2.1, Kafka2.12, Scala 2.11.6, Java .

2] Title: Optimized Approach for storing small files in Hadoop Distributed File system.

Working: Hadoop have problem for storing small files in hdfs it impart load on namenode in term of metadata of individual file. My solution to this problem is to merge the small files less than 3 MB size in to single file. The merged file can be uploaded to hdfs along with index table.

Role:

1. Implemented coding for merging small file and building index for merged file.
2. Developed interface to interact HDFS in order to upload, delete, download files from HDFS.
3. Tested above scheme on hadoop cluster with college sample datasets.
4. Compared result with native HDFS scheme.

Development Environment :

Operating Systems: Ubuntu (IBMInfo Spear)

IDE used: Eclipse

Technologies used: Java.

3] IOT Vehicle monitouring Platform (june 2020 to till date)

Working: The monitour vehicle status details such as distance travelled, Fuel and Battery level, ON-OFF Status, GPS Location

Role:

1. Involved in designing cloud architerture.
2. Configured IOT hub DPS to register IOT devices using zero touch provisioning.
3. Written structured streaming spark job in databricks to process real time data coming from IOT devices.
4. Configured Cosmos DB database to store processed data.
5. Implemented datapipeline for moving data from cosmos db to Datalake.
6. Designed Database schema to store raw and processed data.
7. Implemented real time alert using Azure function, Sendgrid.

Development Environment:

Azure IOT platform
