Memorandum of Understanding (MOU)
between
SVERI College of Engineering Pandharpur, Solapur
and
Tata Technologies Limited
Date: January 17, 2010

TATA
TATA TECHNOLOGIES

SVERI College of Engineering Pandharpur, Solapur, (hereinafter referred to as **SCEP**), is a college of Engineering and Technology, having its campus at Gopalpur-Ranjani Road, P.B. No.54, Gopalpur Pandharpur-413 304, Dist-Solapur, Maharashtra, India.

And

Tata Technologies Limited (hereinafter referred to as **"Tata Technologies"**) is a company registered under the Indian Companies Act, 1956 and has among other businesses, in the business of providing products and services to OEM and Engineering Sectors in the area of Automotive and Aerospace, having its registered office at 25, Rajiv Gandhi Infotech Park, Pune – 411 057.

In the course of this MOU both parties to the MOU mentioned above have been individually referred to as "Party" and jointly as "Parties".

Objective and Terms

1. Tata Technologies under aegis of the Corporate Sustainability Program (CSP) has identified the need for imparting quality training in the "Design Engineering" domain to 3rd and 4th year Mechanical Engineering students of **SCEP**. The Train Invent Initiative is to better equip young engineers to increase awareness and industry command. The Parties intend to enter in to this MOU to provide a frame work evaluating the area of collaboration between them and establish certain rights and obligations between the Parties during such evaluation. Tata Technologies plans to roll out this e-learning program as a pilot project in SCEP.

2. This MOU further establishes an understanding between the Parties to do a pilot test for conducting a Design Engineering training for 3rd & 4th year Mechanical Engineering students ("Students") of SCEP using methods and aids generally associated with distance learning. (This training is being planned for the first time by Tata Technologies and is currently being conceptualised by Tata Technologies' employees who are experienced in Design Engineering. This program is being planned as part of the Tata Technologies very successful **"Ready Engineer Program"** under the aegis of its Corporate Sustainability. The program for purposes of this agreement will be referred to a **"Distance Ready Engineer"** or **"DRE"** hereinafter.

3. DRE is a voluntary initiative and Tata Technologies will design a course for the entire training. Tata Technologies' experts and experienced Design Engineering specialists will create an e-learning module hosted on GET IT or a platform (as decided by Tata Technologies at that point of time) which will be licensed for use to selected engineering students of **SCEP**.

4. The proposed methodology for the program will be decided by Tata Technologies in due course of time in consultation with its own consultants and SCEP. The terms and conditions of the license to use the program will be provided by Tata Technologies in due course as may be required. All Intellectual Property Rights generated under this program will solely belong to Tata Technologies.

5. The training may require tests to be conducted on a regular intervals during the entire course of DRE to evaluate the students' performance and based on the results, necessary guidance will be given to the students by the SCEP Professors (who have undergone the **'DRE Train the Professors Workshop'**) so as to achieve a satisfactory status.

6. SCEP commits to make available the students, professors, training rooms and licensed CATIA V5 software on work stations during the course of the of the DRE program as may be required. This is necessary for a successful implementation and completion of the DRE program.

7. Tata Technologies may charge some nominal fees for the training as agreed between the Parties. The nominal fee obtained from through this course will be utilized for corporate sustainability programs.

8. Tata Technologies may hire the trained students and will have the 1st right of refusal for selection after these students complete their graduation which would mean that Tata Technologies may be the first company to Interview these Students.

9. Proprietary information disclosed by Tata Technologies in the course of discussions and training under this MOU shall be kept highly confidential. SCEP shall not use Tata Technologies' name or its trademarks or make any reference to the MOU or the DRE program in any manner or publicity without Tata Technologies' prior written consent.

10. Parties are aware that the business activities of Tata Technologies are self-regulated by the "Tata Code of Conduct", which is incorporated by reference herein. It can be accessed and downloaded from http://www.tatatechnologies.com.

11. This MOU is effective from the date of signing and will remain valid unless terminated by either Party, upon thirty (30) days written notice to the other Party.

12. This MOU shall be construed, and the legal relations between the Parties hereto shall be determined, in accordance with the substantive laws of India. The parties shall refer their disputes to the exclusive jurisdiction of the Courts at Pune, India.

13. Neither this MOU nor any negotiations or other understandings prior or pursuant to the execution of the MOU shall constitute a binding and legally enforceable MOU, nor give rise to any liability, between the Parties.

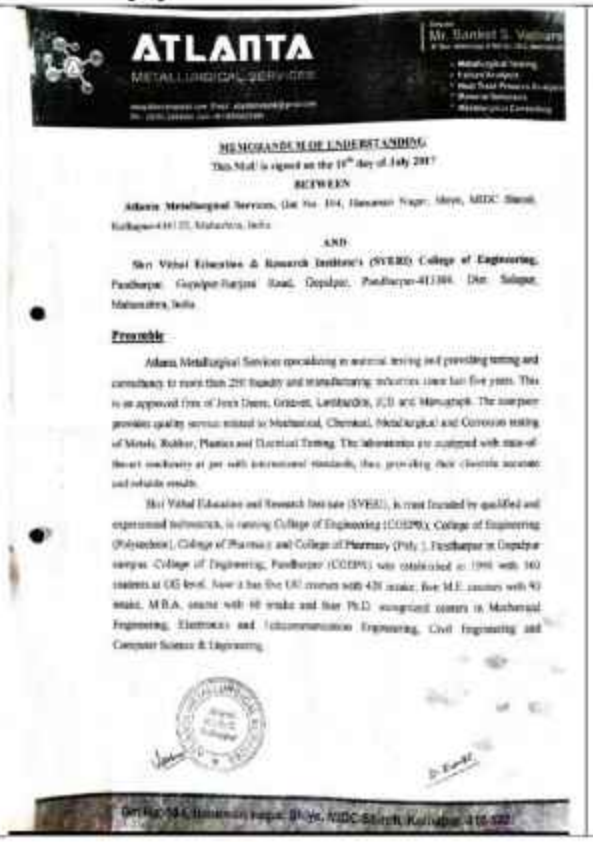

The Parties have caused their respective duly authorized representatives to execute and deliver this Agreement on the date mentioned herein above.

Webinar based Readiness Workshop on "InfyTQ based Foundation Program"

6th May to 11th May 2019

Dear Professor,

Greetings from Team Campus Connect!

In continuation to onboarding of InfyTQ to our partnering colleges, we are pleased to announce **Readiness Workshop on "InfyTQ based Foundation Program"** scheduled from 6th – 11th May 2019.

Following would be the agenda:

1. 6th May: Context setting for the workshop
2. 6th-9th May: Programming Fundamentals and OOPs using Python
3. 10th May: RDBMS
4. 11th May: Data Structures, Assessment and Closure

Time:

- Everyday 10:00-13:00 : Discussion over webinar
- 13:00 – 14:00 : Lunch break
- 14:00 - 17:00 : Assignment solving and Doubt clearing.

Important Points:

- *Knowledge*: **Faculty must know Python Programming language, OOPs concepts and RDBMS basics.**
- Please note that the faculty members who have attended the earlier LEX FEP should not attend this one, kindly nominate other faculty members
- Kindly note that **all the faculty members should be present in live webinar session from 10:00-13:00 without engaging themselves at college level activities** like any lectures, practicals, etc. The post lunch session is when participants are supposed to complete the assignments. In case they are not able to complete it during the workshop time for any reason then they are expected to complete before next day session and submit.

E-Certificates:

- On successful completion of the course (pre-work, attendance minimum 5 days and assessment score more than 75) graded e-certificate will be sent to the participants.

Registration:

- Please nominate 2 faculty members and send the attached registration file by 30th April to Kamaljeet_kaur01@infosys.com . PI send in this format again if you have already shared your nominations in emails.

The details regarding how to submit the assignments and webinar links will be shared with the registered participants.

We look forward to your active participation in this program.

Thank you.

Best Regards.

Industrial Visit Report

- We visited Infosys Ltd., Phase 1, Hinjewadi, Pune on 8th August 2017 along with 133 students of BE(CSE) all divisions and 6 faculty members.
- We started the journey from SVERI's COE Pandharpur at 03.00 am (as per the schedule which was decided earlier) and we reached at Infosys campus at 10.30 am. After reaching there, first we completed the Check-In formalities i.e. security checking and collecting visitor's pass. It took around 1 hr. to finish all the formalities. During this we observed the security process and discipline of security employees.
- Once we entered in the main building of Infosys, we experienced lush green, environment friendly atmosphere. All the arrangements were already done in the classroom. So we headed towards the classroom. All the students took their seats in well-disciplined manner.
- The guidance session was conducted by Mr. Anuj Jajoo and Mr. Ravi. It lasted for 2 hrs. The important topics discussed during the classroom session are-
    - Welcome of students on behalf of Infosys.
    - Introduction & history of Infosys.
    - Products & services Infosys offers
    - Working in Infosys- personal experience by Mr. Ravi
    - Introduction and Importance of soft skills required.
    - What qualities the undergraduates should possess for entering IT industry.
- After this session, Group Discussion was conducted. Students participated in this with enthusiasm. Prof. S.V. Darshane judged the discussion. After the conclusion he gave remarks to each participant. Mr. Anuj and Mr. Ravi gave us valuable guidance for group discussion.
- Then we took 30 min tea break. After the break we again gathered in the classroom for the next session. During this session, Mr. Anuj Jajoo told us about the Infosys Campus Connect program and the Importance of this program.
- In this session we got good knowledge about Infosys journey. Mr. Anuj also gave some valuable tips for solving problems and projects in campus connect program. The session last for an hour.
- After this we took 30 min break followed by 30 minutes guided campus visit. In this visit we experienced the Infosys atmosphere. We saw the In-Campus facilities that are provided to the Infosys employees such as Central Library, Dhyan & meditation room, Gym, Indoor sports, etc.
- After all the fruitful sessions at Infosys, now it was a time for us to start our return journey. So, with the fond memories of Infosys, we started the journey back to our college.

Hello Sir,

Please find details of the opportunities for your students. Our current requirements are open, hence request you to speed up your search process.

Educational Qualifications :
No criteria. ATKT, YD can also apply. Candidates from any stream can apply. Graduation not mandatory.

Experience :
We are looking for freshers as well as experienced candidates.

Technical Requirements :
Strong fundamentals in the skills taught in the **RHCSA program are mandatory**. Certification is not currently essential.

Service Bond :
Signed Agreement for 2 years with a security cheque of INR 1.5 lakhs. The cheque would be retained by us and would be encashed only if the candidate does not honour the terms of the bond.

Gender :
The positions are open to ladies and gents.

Job Description :
The job involves working on rolling out and supporting commercial technologies (RHEL, SUSE Linux, etc.) as well as high-end technologies like Virtualization, Cloud Computing, Disaster Recovery, High Availability Clustering, Software Defined Storage, etc. in large data centre environments with critical workloads. The job may involve shifts (only male candidates) and may also require travel to locations in India and abroad for deployment and support roles.

Compensation :
Initial annual CTC would vary from INR 140,000 to INR 200,000, depending on the technical skill of the candidates. Exceptional candidates could draw higher compensation.

Kindly let me know how we can take this further.

Best wishes,
Shivani Kyatham

1.2 First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities of the faculty of First Party providing significant inputs to them in developing suitable teaching / training systems, keeping in mind the needs of the industry, the SecondParty.

1.3 The general terms of co-operation shall be governed by this MOU. The Parties shall cooperate with each other and shall, as promptly as is reasonably practical, enter into all relevant agreements, deeds and documents (the 'Definitive Documents') as may be required to give effect to the actions contemplated *in terms of this MOU. The term of Definitive* Documents shall be mutually decided between the Parties. Along with the Definitive Documents, this MOU shall represent the entire understanding as to the subject matter hereof and shall supersede any prior understanding between the Parties on the subject matter hereof.

CLAUSE 2 SCOPE OF THE MoU

2.1 The budding graduates from the institutions could play a key role in technological up-gradation, innovation and competitiveness of an industry. Both parties believe that close co-operation between the two would be of major benefit to the student community to enhance their skills andknowledge.

2.2 **Curriculum Design:** Second Party will give valuable inputs to the First Party in teaching / training methodology and suitably customize the curriculum so that the students fit into the industrial scenariomeaningfully.

2.3 **Industrial Training & Visits:** Industry and Institution interaction will give an insight into the latest developments / requirements of the industries; the Second Party to permit the Faculty and Students of the First Party to visit its group companies and also involve in Industrial Training Programs for the First Party. The industrial training and exposure provided to students and faculty through this association will build confidence and prepare the students to have a smooth transition from academic to working career. The Second Party will provide its Labs / Workshops / Industrial Sites for the hands-on training of the learners enrolled with the First Party.

2.4 **Internships and Placement of Students:** Second Party will actively engage to help the delivery of the Internship and placement of students of the First Party into internships/jobs,as per AICTE internship Policy. The

Second Party will also register itself on AICTE Internship Policy Portal for disseminating the Internship opportunities available with them.

2.5 **Research and Development:** Both Parties have agreed to carry out the joint research activities in the fields of **Civil Engineering.**

2.6 **Skill Development Programs:** Second Party to train the students of First Party on the emerging technologies in order to bridge the skill gap and make them industry ready.

2.7 **Guest Lectures:** Second Party to extend the necessary support to deliver guest lectures to the students of the First Party on the technology trends and in-house requirements.

2.8 **Faculty Development Programs:** Second Party to train the Faculties of First Party for imparting industrial exposure/ training as per the industrial requirement considering the National Occupational Standards in concerned sector, ifavailable.

2.9 Both Parties to obtain all internal approvals, consents, permissions, and licenses of whatsoever nature required for offering the Programs on the terms specified herein

2.10 There is no financial commitment on the part of the **Shri Vithal Education And Research Institute, GopalpurRanjani Road, GopalpurTal. Pandharpur Dist. Solapur Pin: 413304** the First Party to take up any program mentioned in the MoU. If there is any financial consideration, it will be dealtseparately.

CLAUSE 3 INTELLECTUAL PROPERTY

3.1 Nothing contained in this MOU shall, by express grant, implication, Estoppel or otherwise, create in either Party any right, title, interest, or license in or to the intellectual property (including but not limited to know-how, inventions, patents, copy rights and designs) of the other Party.

CLAUSE 4 VALIDITY

4.1 This Agreement will be valid until it is expressly terminated by either Party on mutually agreed terms. The Second Party, as the case may be, will take effective steps for implementation of this MOU. Any act on the part of **Training Partner** or J. K. Engineer, the Second Party after termination of this Agreement by way of communication, correspondence etc., shall not be construed as an extension of thisMOU.

4.2 Both Parties may terminate this MOU upon 30 calendar days notice in writing. In the event of Termination, both parties have to discharge theirobligations

CLAUSE 5 RELATIONSHIP BETWEEN THE PARTIES

5.1 It is expressly agreed that **First Party** and Second **Party** are acting under this MOU as independent contractors, and the relationship established under this MOU shall not be construed as a partnership. Neither Party is authorized to use the other Party's name in any way, to make any representations or create any obligation or liability, expressed or implied, on behalf of the other Party, without the prior written consent of the other Party. Neither Party shall have, nor represent itself as having, any authority under the terms of this MOU to make agreements of any kind in the name of or binding upon the other Party, to pledge the other Party's credit, or to extend credit on behalf of the otherParty.Any divergence or difference derived from the interpretation or application of the MoU shall be resolved by arbitration between the parties as per the Arbitration Act, 1996. The place of the arbitration shall be at District Head Quarters of the First Party. Subject: Invitation to deliver an expert talk on the topic **"Solid Waste Management Biogas as case study"** on 2020-11-12.

Respected Sir,

Shri Vithal Education and Research Institute's College of Engineering, Pandharpur was established in the year 1998 by a group of qualified and experienced Technocrats. Since its inception, the college has been excelling in academic and research performance and is known for its unique culture with discipline and respectful environment for overall development of the students.

Our Institute organizes a series of guidance sessions on various topics throughout the year, for our Engineering & Management Students. It gives me immense pleasure to invite you as the expert speaker to guide and motivate our students on topic **"Solid Waste Management Biogas as case study"**. We are sure that your guiding words will give dynamic energy in the endeavor of developmental process of our Students and institute.

You are requested to kindly make it convenient to visit our institute on dated 2020-11-12. Sir, we are eager to welcome you in the premises of our Institute.

Respected Sir,

This is to express our sincere gratitude towards you for guiding our students our TE, BE on 2020-11-12 on the topic **"Solid Waste Management Biogas as case study"**. Your valuable thoughts will always keep our students inspiring and motivated.

This talk helped our TE, BE students for linking to their CO/curriculum Gap: G4: Practical Aspects of Construction Management, G5: Advanced Topics in Civil Engineering. This talk also helped to meet our "PO4: Conduct Investigations of Complex Problems, PO6: The Engineer and Society, PO11: Project management and finance, PSO3: Use the techniques, skills and modern software tools" Programme Outcomes/Programme Specific Outcomes.

I request the same kind of cooperation in future also.

MEMORANDUM OF UNDERSTANDING

This MoU is signed on the 2nd day of July, 2015

BETWEEN
SVERI's College of Engineering, Pandharpur
[On behalf of Department of Civil Engineering]
And
DAS Group, Mumbai
For
Promotion of Industry-Institute Interaction.

Shri Vithal Education and Research Institute (SVERI), is trust founded by qualified and experienced technocrats, is running College of Engineering (hereafter referred as COEPR), College of Engineering (Polytechnic), College of Pharmacy and College of Pharmacy (Poly), Pandharpur in Gopalpur campus. College of Engineering, Pandharpur (COEPR) was established in 1998 with 160 students at UG level. Now it has five UG courses with 480 intake, five M.E. courses with 90 intake, M.B.A. course with 60 intake and four Ph.D. recognized centers in Electronics and Telecommunication Engg., Mechanical Engg., Civil Engg., and Computer Science and Engineering.

DAS Offshore Engineering Pvt. Ltd., was incorporated in 1992. For nearly 2 decades DAS name has stood for quality, integrity & Progress and has provided great amount of innovation to projects. Registered corporate office at Sagar Uday, Plot No F-3, Agroli Village, CBD Belapur, Navi Mumbai-400614.

DAS Offshore Engineering Pvt. Ltd owns infrastructure ranging from factory, workshops, and equipments used for various projects. The pool of infrastructure includes a factory including three workshops admeasuring 40,000 square feet located at Navi Mumbai. In addition, the company has state of the art equipment required for : Fabrication / welding of offshore structures / piping , Custom bonded area , Underground radiography enclosure along with storage pit which is certified by BARC , Underground grit blasting / painting unit admeasuring 15m x 15m.

DAS Offshore Engineering Pvt. Ltd undertakes various development activities utilizing the infrastructure, manpower, and expertise. The various development activities are as follows: Civil Work, Buildings, Skywalks, Water supply pipelines, Drainage pipelines, Water Treatment plants, Bridges, Road construction.

Objective:

This MoU is between SVERI's College of Engineering (COEPR), Pandharpur and DAS Group, Mumbai with a primary objective of "Promotion of Industry-Institute Interaction" on continuing basis for mutual cooperation and benefit for achieving a harmonious blend of strong points from both sides.

Following are the areas where we propose to work together to achieve the objectives:

Role of DAS:

A. DAS will help in identification of problems to be solved jointly and provide inputs in the process based on the facilities available at COEP and DAS.
B. DAS will share necessary industrial knowledge for execution of the planned projects.
C. DAS will depute specialists and experts to COEPR at its own cost for progress evaluation and technical consultations whenever needed.
D. DAS will facilitate training at COEPR students and faculty members in the areas such as planning, design and execution.
E. DAS will provide list of projects and helping students groups in the process of project selection and guiding in the process of synopsis preparation.
F. DAS will take initiative in guiding students for design at projects and to bring them on common design platform.

Role of COEPR:

A. COEPR will identify the problems to be solved in collaboration with DAS.
B. COEPR will involve their faculty members and students to solve the identified problems.
C. COEPR will depute faculty members and students for training and internship as per the requirement of the project or otherwise for getting the industry exposure at their own expenses in consultation with DAS.
D. COEPR will upgrade the facility required for the planned problem based on the suggestions from DAS
E. COEPR will generate required data in the format suggested by DAS. The data will be utilized to modify the system for its performance improvement.

F. COEPR will act as knowledge partner with DAS to provide recent methodology in the process of system design.

VALIDITY

The agreement is valid for a period of seven years with effect from the date of signing of the agreement and may be renewed after that period, incorporating mutually agreeable modifications, if any thereafter. Either party may withdraw from the agreement by giving a written notice of three months in advance, subject to fulfillment of prior obligations otherwise surviving.

ARBITRATION

AG and SVERI shall settle any dispute arising out of any clause of this Agreement through mutual consultations. In case a settlement is not arrived at such dispute(s) will be subjected to provisions of Arbitration and Conciliation Act. The jurisdiction of arbitration shall be the city of Pandharpur.

The Memorandum of Understanding (MoU) is made on this 2nd day of July 2015 at Pandharpur.

Wari Exhibition 2017
Jointly organized by
BAIF Development Research Foundation & SVERI's College of Engineering
Supported by Rajiv Gandhi Science & Technology Commission

BAIF & SVERI has been organizing Technology exhibition since the last three years during Ashadi Wari. Considering overwhelming response from Warkaris & outreach potential of the endeavor, the initiative has been continued this year also.

The exhibition was divided into two phases – Mobile exhibition on Uruli Kanchan - Jejuri route from 20 to 22 June2017 and Exhibition stall at Gopalpur on 3 – 4 July 2017.

The exhibition named as "ग्रामीण तंत्रज्ञान व स्वच्छता दिंडी" and "ग्रामीण व कृषी तंत्रज्ञान प्रदर्शन", over the course of five days could interact with thousands of Warkaris associated with various Palkhis and Dindis. Around 20,000 to 25,000 people visited the exhibition. Data of about 700 visitors expressing interest in specific areas has been collected.

This year we facilitated RO purified water to warkaries during the period of Phase-I to initiate and awareness on safer drinking water and sanitation.

Observations:

1. This platform provides facility to interact with large number of farmers and understand their needs and potential areas of technological interventions in agriculture and rural areas.

2. Demonstration models for technologies like solar insect trap, solar pump, solar dryer, dried products, grain storage bag, biogas, waterboxx, water conservation tray, soil testing kit, water purifier etc. were displayed.

3. In commemoration of the Golden Jubilee year of BAIF, various rural development initiatives undertaken over the past five decades were also highlighted.

4. This year, Urulikanchan and Jejuri routes were followed to cover both the palkhis of Sant Dnyaneshwar Maharaj and Tukaram Maharaj and nearby villages of Urulikanchan were also visited.

5. It was also observed the interest of the farmers to organize such exhibitions at their place to avail benefit of the same.

6. Taking note of last year's demand, information on different varieties of rice being promoted under RGSTC supported MGB project were also displayed.

7. We found Warkaris overwhelming response for solar pump and low cost model which BAIF has developed for marginal farmers.

8. Innovative food products developed in RHRDF project received encouraging response from Warkaris.

Follow up actions:

1. Based on overwhelming response in the past years, the initiative this year has been continued after closure of both MAHANETRA & RHRDF projects. It is intended to proceed with the event in the coming years too wherein the costs are proposed to be met through technology products and services.

2. Considering farmers need based on various demands, we noted the details of such farmers and provided them a toll free number through which they can avail necessary info any time from BAIF expertise. Additionally, BAIF's outbound call centre initiative "Samvadini" is also establishing regular contact with these farmers.

3. There is scope for organizing similar exhibitions at other places during local festivals & processions. Previous experience during Gahininath Yatra at Ashti, Beed has also shown the impact of conducting such events.

4. It is also planned to establish contact with Dindi leaders so as to establish a network of Warkaris for technologies promotion.

Memorandum of Understanding (MoU) between Bhabha Atomic Research Centre (BARC), Department of Atomic Energy (DAE), Mumbai and Shri Vithal Education & Research Institute (SVERI), Pandharpur, Maharashtra for setting up Rural Human And Resource Development Facility at SVERI Campus, Gopalpur, Pandharpur

This MoU is made between Bhabha Atomic Research Centre (BARC), Mumbai - 400 085, Department of Atomic Energy (DAE), Govt. of India (hereinafter called '**BARC**' which expression shall include its successors-in-interest and assigns) of the one part.

AND

Shri Vithal Education & Research Institute, Gopalpur-Ranjani Road, Gopalpur, Pandharpur – 413 304 Dist. Solapur, Maharashtra (hereinafter called '**SVERI**' which expression shall include its successors-in-interest and assigns) of the second part.

PREAMBLE

Whereas BARC is a premier multidisciplinary R&D organization under the Department of Atomic Energy, Government of India, engaged in research with the objective of generating knowledge and technologies for nuclear power production, advancement of nuclear science, use of radioisotopes in industry, health and agriculture, research in frontier areas of science and technology, which includes development of various types of technologies in medical applications, food preservation, pollution control, waste management, water technologies, non-destructive testing and other industrial and rural applications.

Under the framework of DAE Societal Infrastructure, it is planned to spread 'AKRUTI' (Annex-1) programme in a systematic manner through promoting "Rural Human and Resource Development Facility" (RHRDF) under the guidance of BARC-DAE experts. This forms as one of the many schemes for Large-Scale Deployment of NPAs and spinoffs and enable faster spread of AKRUTI and for techno economic growth of rural areas.

Whereas SVERI, a Charitable Trust, embarked on its ambitious mission on rural development projects, has established its first ideal Engineering College at Pandharpur with approval from All India Council for Technical Education (AICTE), New Delhi and Govt. of Maharashtra. The Engineering College is accredited by National Board of Accredition (NBA), An ISO 9001:2008 certified Institute and is also accredited by the Institution of Engineers (India), Kolkatta. Courses offered are BE in Mechanical Engg., Computer Science & Engg., Electronics & Telecommunication Engg., Information Technology, Civil Engg.; ME in Mechanical Engg. (Design), ME (EXTC) and MBA. Also the Institute is recognized by Solapur University, Solapur to enroll candidates for doctorate. To continue with the developmental process, it has started B. Pharmacy and D. Pharmacy courses from the academic year 2006-2007 and Diploma in Engineering (Polytechnic) from the academic year 2008-2009. The college campus is a perfect blend of academic excellence and beauty of surrounding villages.

Whereas SVERI has a strong interest in community development to improve the standard of living of poor sections of the society with appropriate technologies. SVERI has very healthy interaction with villagers in the area and engaged in many social activities for villagers. SVERI has young, experienced and enthusiastic faculty, spirited and devoted to teaching. The faculty is very keen and energetic to take up new technologies to villages and is eager to get guidance from BARC. SVERI is familiar with villagers' needs and problems. SVERI is also confident that BARC programme of AKRUTI will successfully provide solutions to village problems.

B.Rangi

BARC and SVERI agree to create integrated **Rural Human and Resource Development Facility (RHRDF)** at SVERI Campus in Gopalpur & around and spread AKRUTI programme in villages of Solapur District with an intension of expanding further to take lead in this program.

Now THEREFORE, IT IS HEREBY AGREED TO BY AND BETWEEN BARC and SVERI as follows:

1. 0 This MoU supersedes all previous correspondence and discussions in reference to the initiative for AKRUTI and RHRDF.

2. 0 PERIOD OF MOU AND ITS EXTENSION

This MoU comes into effect from the date of its signing and will remain in force for **7 years.** Its validity can be extended by mutual agreement between both the parties.

3.0 SCOPE OF WORK

BARC and SVERI hereby agree to set up RHRDF, promoted by BARC and created by SVERI. SVERI agrees to spread BARC AKRUTI program through RHRDF in Solapur district to start with and expand its area of operation. SVERI also agrees to deploy technologies from BARC in the suggested format of AKRUTI, KRUTIKs and FORCE in the rural sectors.

4.0 ROLE AND RESPONSIBILITIES OF SVERI AND BARC

4.1 RESPONSIBILITIES OF SVERI

4.1.1 SVERI agrees to create complete Rural Human & Resource Development Facility (RHRDF) at Gopalpur under the guidance of BARC. RHRDF includes setting up training institute, called as Rural Human & Resource Development Institute (RHRDI) along with all other support facilities.

4.1.2 SVERI agrees that RHRDF shall build in campus and in the field training facility in terms of plants and systems based on BARC technologies. This facility will be used by RHRDF for demonstration, practical training and for providing service to villagers through trained villagers.

4.1.3 SVERI agrees to manage and provide all support for RHRDF in terms of land, working space, infrastructure, and HR from appropriate sources.

4.1.4 SVERI agrees to allow and involve initially volunteered Engineering College staff in RHRDF and latter recruit full time RHRDF staff on increase of activity. SVERI also agrees to create working groups for planning and creating infrastructure and setting the facilities as given in Appendix-1.

B. Ranga

4.1.5 SVERI shall involve different interest groups from villages in all the activities, train them and latter involve them in running, providing services and spreading the activity and programme in other rural sectors.

4.1.6 SVERI will design, develop and run appropriate courses with proper syllabus in consultation with BARC experts. The said courses will be certified jointly by BARC and SVERI.

4.1.7 SVERI will follow up the programme for technology demonstration, implementation and deployment in surrounding villages for spreading use of BARC technology and products. SVERI may also through proper agreement, encourage technically oriented village entrepreneurs through Train while Build and Own mechanism and establish appropriate technology based product delivery system in villages to promote techno-economic activities in rural sector for societal benefit. SVERI agrees to take up a separate village entrepreneurship promotion programme based on the progress of this activity.

4.1.8 SVERI will take all requisite approvals and clearances from appropriate authorities for the work for setting up RHRDF facilities and implementation of BARC technologies as the case may be.

4.1.9 SVERI will manage running and O&M of all the facilities created in RHRDF.

4.1.10 SVERI will share their experience and synergise with organizations where similar initiatives are taken by BARC in other parts of Maharashtra/India.

4.1.11 SVERI will send short one page report within a week from the date of visit of any BARC expert and other eminent guests to the site.

4.1.12 SVERI will also maintain and submit Annual progress report of RHRDF to BARC alongwith working plan for next year.

4.2 RESPONSIBILITIES OF BARC

4.2.1 BARC shall promote RHRDF and all its activities at Gopalpur.

4.2.2 BARC shall provide expert advise and technical guidance to SVERI in setting up RHRDF at Gopalpur, Pandharpur.

4.2.3 BARC shall provide work plan indicating the budget requirement (Appendix-2) for setting up support facilities and technology resources based on BARC technologies.

4.2.4 BARC shall train the SVERI AKRUTI Team for promoting, popularizing and spreading AKRUTI programme with activities in the rural sectors.

4.2.5 BARC shall provide engineering projects to M.Tech and B.Tech students (Appendix-1) for adapting and developing new applications for rural sector. This will be carried out under the local guidance of college professors.

B. Ronge

4.2.6 BARC shall provide technical guidance in the form of Technical Documents [TD] and technical consultancy for setting up plants and systems based on BARC technologies as shown in Appendix-1. This will serve as the demonstration, training and trial facilities of RHRDF for training villagers.

4.2.7 BARC will guide SVERI to study, review and prepare the feasibility reports and proposals for deployment of advance technologies for preservation and disinfestation of agro products and other suitable areas on setting up of RHRDF.

4.2.8 BARC and SVERI shall jointly prepare report on Applications of advance technologies such as MEMS and Nano technologies in rural sectors and SVERI shall work in this area under the guidance and support by BARC.

5.0 FINANCIAL TERMS

5.1 BARC shall provide technology documents and consultancy to SVERI without any charges.

5.2 SVERI intends to allocate land of about 3.00 acres for creating RHRDF at Gopalpur Campus.

5.3 SVERI intends to provide expertise of faculty from its engineering and pharmacy colleges, initially for the period of 3 years which may be further extended as per the requirements.

5.4 SVERI intends to contribute Rs. 25 lakhs, initially, towards the corpus and further contribute additional Rs. 25 lakhs for sustainability.

5.5 SVERI shall provide all the budget support in addition to its contribution for creating complete RHRDF by arranging the funds from funding agencies with guidance / positive role from BARC in the process.

5.6 SVERI will manage to obtain required additional future financial support for implementation, demonstration, adaptation and deployment of new BARC technologies.

5.7 BARC shall guide SVERI to prepare proposal for "Assistance for S&T applications" programme of RGSTC, GoM for the budget support as in Appendix-2.

5.8 During meetings, individual organization shall bear their own expenses. However, host organization shall arrange for accommodation, local transport and hospitality.

6.0 PROGRAM COMMITTEES

6.1 STANDING PROGRAMME STEERING COMMITTEE [SPSC]

A joint committee of BARC and SVERI called as Standing Programme Steering Committee (SPSC) to give policy guidance and steer the programme will consist of the following members.

B. Ranga

1.	Dr. R.K. Sinha, Director, BARC	Chairman
2.	Dr. K.B. Sainis, Director, BMG, BARC	Member
3.	Dr. V. K. Suri, Head, PED, BARC	Member
4	Shri. D. S. Salvithal, Chairman, SVERI	Member

7.	Dr. P. M. Pawar, R & D Cell Coordinator, College of Engineering, Pandharpur, SVERI	Member
8.	Shri A.M. Patankar, Head, TT&CD, BARC	Member-Convenor

SPSC will meet once in a year.

6.2 PROGRAMME MONITORING AND REVIEW COMMITTEE [PMRC]

A joint group called Programme Monitoring and Review Committee (PMRC) of BARC and SVERI will review, monitor and evaluate the progress of the program. PMRC will consist of following members:

1.	Head, TT&CD	BARC	Chairman
2.	Secretary, SVERI	SVERI	Co-chairman
3.	Head, NABTD	BARC	Member
4.	Head, FTD	BARC	Member
5.	Head, DD	BARC	Member
6.	Head, IAD	BARC	Member
7.	Head, PED	BARC	Member

12.	Dr. Krishnamurthy, Professor College of Pharmacy, Pandharpur	SVERI	Member
13.	Dr. P. M. Pawar, R & D Cell Coordinator, College of Engineering, Pandharpur	SVERI	Member
14.	Principal AKRUTI Co-ordinator	BARC	Member, Co-convenor
15.	Dr. M. L. Kulkarni, Vice-Principal, College of Engineering, Pandharpur	SVERI	Member-Convenor

B. Ronge

PMRC will meet at least once in 4 months in the first year and subsequently twice in a year to review, evaluate and recommend taking up new technologies based on detailed project implementation report and progress of the work. The tenure of the PMRC will be coterminous with the MoU. Experts, if required will be called for meeting with the permission of Chairman. PMRC shall report to SPSC once in year or as required. One or two members from village can be co-opted in the committee by Secretary, SVERI as per the requirement.

6.3 SVERI shall set up all working groups within two weeks of signing MoU and intimate BARC.

6.4 RHRDF will be managed and run by SVERI under the guidance of BARC. RHRDF in SVERI campus will act as a DAE Out-Reach Centre.

7.0 Any publications or IPR arriving out of this activity shall be jointly done with advance mutual intimation and concurrence.

8.0 NO LIABILITY CLAUSE

BARC shall not be responsible for any loss or damage whatsoever, resulting due to implementation of these technologies at the premises of the user(s) or due to testing of the same at their premises.

9.0 NON-EXCLUSIVE NATURE OF THIS MOU

This MoU between BARC and SVERI is and shall be non-exclusive in its nature for all purposes.

10.0 MOU AND ITS AMENDMENTS

This MoU shall be the sole repository or the terms and conditions agreed to between the parties and no amendments thereof shall take effect or be binding on BARC and SVERI unless such amendment is mutually agreed by both the parties and is recorded in writing and signed by the representatives of BARC and SVERI.

11.0 Any dispute or difference arising between the parties shall be referred to Secretary, DAE & Chairman, AEC and his decision shall be final.

B. Ranga

12.0 This MoU shall come into force upon the last date of its signing.

In witness whereof the parties hereto have executed this MoU through their authorised representatives.

"AKRUTI – KRUTIK – FORCE"

(Inclusive Rural Advancement through Technology Deployment)

DAE- SOCIETIAL INITIATIVE FOR LARGE SCALE DEPLOYMENT OF TECHNOLOGIES

BACKGROUND

Over the past 50 years a large indigenous Science & Technology (S&T) know-how has been generated in various national laboratories and in parallel, several technologies have been imported. Urban sector has received the highest attention by way of deployment of large number of these technologies and know-how in urban areas resulting in rapid urban development leading to **urban rural divide in terms of prosperity and opportunities**. Further, India's young population is expected to be the largest in the world in decades ahead, over 500 millions. Creating gainful and productive work for them is the greatest challenge. Technical know-how generated in national laboratories related to basic needs such as water, food, energy and environment has been underutilized. Deployment and adaptation of this know-how to the rural needs could provide a creative opportunity for expected 500 million youths in rural and urban India to contribute to the national wealth with prosperity for everybody including villages.

KEY DRIVERS

Organisations nurturing know-how for water management, land utilization and energy production and conservation, all done in an environment friendly manner are the key drivers of emerging global economy. All these four factors viz. water, land, energy and environment are the lifeline for the rural economy where ~ 70% of Indian population resides contributing only ~ 30% to GDP. Moreover good environment is an issue of great concern and worry for healthy existence of our present and future generations.

VISION

In a country of the vast size such as ours, technology innovations and adaptation has to be evolved in a greater measure particularly since such technology has to fit with varied local conditions and need to be applied quickly to enhance the

quality of life of larger population. Considering the wealth of technology and innovative capability generated in BARC & DAE units as an off-shoot of R&D in Nuclear Energy and its applications in power and non-power areas, Department has launched **DAE – Societal Initiative** for utilization of Non-Power Applications (NPAs) and Spinoff technologies (Spinoffs) in the area of water, land, agriculture, food processing and urban-rural waste management. Within this framework of societal initiative, structured programme called "**AKRUTI - KRUTIK - FORCE**" has been formulated and is being implemented by BARC for techno-economic growth of the rural sector, as one of the many schemes for large-scale deployment of NPAs and Spinoffs. This programme will enable to take the fruits of technology to grass-root level to every villager in the remote corner and provide inclusive growth to the rural sector and tap the hidden innovative capability of large rural population.

MISSION

"Empower Villages with Science & Technology (S&T) based eco-friendly work plan for sustainable Techno-Economic growth of rural sector"

PROGRAM STRUCTURE

Based on interactions and experience of BARC scientists and engineers with National R&D laboratories, Agriculture Universities, KVKs, Farmers' Co-operatives, other Government Departments, Industries and NGOs; a detailed formatted programme has been worked out that would compliment, supplement and augment the efforts of all existing programmes of different organisations, departments and ministries. Further, large scale deployment of several technologies in the rural sector will lead to economic upliftment, improvement of quality of life, inclusive growth of the rural sector and contribute to increase in rural GDP.

The programme AKRUTI-KRUTIK-FORCE aims to create structured and scalable network of technology nodes in rural areas providing easy access to modern technologies to all villagers in their own villages. 'AKRUTI' is an acronym for 'Advance Knowledge and RUral Technology Implementation' programme. Through this programme, the technology centre called AKRUTI node is set up in a village. This is done under the guidance of BARC, through technically oriented NGOs working in that village. AKRUTI node will park number of BARC developed technologies for use by villagers. These technologies are demonstrated and taken to different villages

around the AKRUTI node via working centres established in different villages around AKRUTI. These working centres are called KRUTI Kendra viz. KRUTIK. KRUTIK stands for '**K**nowledge and **RU**ral **T**echnology **I**mplementation **K**endra, which works with villagers and farmers' groups and deploy these technologies in their own villages and in the fields. These groups are known as **FORCE** meaning **F**armers' **O**rganised group for **R**ural **C**reative **E**ntrepreneurship. Each member of FORCE group is made familiar with technologies of AKRUTI through KRUTIK. AKRUTI and KRUTIKs will be managed by technology oriented villagers and NGOs operating in the village.

AKRUTI and KRUTIKs will function coherently and will create large number of FORCE groups in different villages who will benefit from the use of the technologies in AKRUTI node. Some of them will play a role of successful entrepreneurs. The present existing Self Help Groups (SHGs) created by various nationalised banks can play an important role to create a band of rural entrepreneurs. This way, present SHGs will become FORCE for this programme and provide lively-hood security for villagers.

PROGRAM ACTION PLAN

In the beginning, it is planned to set-up few AKRUTI nodes in different states. This will be initiated with the active participation from mission oriented NGOs in pre-selected rural areas. This programme is proposed to run under budget neutral mode as far as DAE is concerned. BARC will provide know-how and technical expertise whereas infrastructure and manpower has to be arranged by collaborating NGOs including managing finance through existing various State and Central government grants, aids and development funds or bank schemes of macro and micro finance.

The scope of work on technology related activity covers both farm and non-farm areas such as propagation of new crop varieties, agro-processing, preservation, water management, soil testing and improving land fertility etc. Further, the scope of physical location of work could be in urban areas for technologies having direct implication to rural development such as implementation of plant similar to 'SHRI' - Sludge Hygienisation Research Irradiator at Vadodara, Gujarat or Bio-gas plant based on biodegradable solid waste - `NISARGRUNA', spread over urban areas of different states of India. Inputs used for these plants are sewage sludge and biodegradable solid waste respectively, generated in cities and produce weed-free, high quality

organic manure (OM) eliminating the waste and sewage completely. The OM is used for topsoil conservation and recovery of degraded land of agri-fields. The OM is also an excellent clean media to create value added products such as bio-fertilisers with additional processing. Moreover, NISARGRUNA could be a great asset in a village, providing high purity Methane gas that is an excellent house hold fuel or can be used for electricity generation.

Initially, working models of AKRUTI nodes will be set up in few villages using BARC developed technologies for demonstration. Subsequently, the modality to incorporate technologies from other R&D centres of different departments will be worked out, in consultation with concerned departments so that proper co-ordination and co-operation is established within these departments for the same purpose.

PROGRAM INITIATION

The programme implementation has commenced and eleven AKRUTIs are in operation in five states of India, as a result of DAE-Societal Initiative launched by Dr. Anil Kakodkar, Former Secretary, DAE & Chairman, Atomic Energy Commission. The 'AKRUTI' programme has received excellent guidance and encouragement from Dr. S. Banerjee, present Secretary, DAE & Chairman, AEC and Dr R. K.Sinha, present Director, BARC. Active interest and support from Dr. R. B. Grover, then Director, Knowledge Management Group, BARC and Dr. K. B. Sainis, Director, Bio-Medical Group, BARC have refined this programme. Apt advice and useful discussions in the formative stage of AKRUTI, with Shri S. Prabhakaran, Ex-Member (Finance) Space & Atomic Energy Commission & former Chairman of DAE-Societal Initiative Steering Committee has laid the strong foundation of this programme. Interest in the programme and its appreciation by Dr. Vasant Gowarikar, Chairman, Rajiv Gandhi Science & Technology Commission (RGSTC), Govt. of Maharashtra, and realising the timely introduction of the project due to its direct relevance to our rural economy resulted in financial support by RGSTC for AKRUTIs in Maharashtra State. The excellent active participation of concerned BARC scientists and engineers and cooperation from all Heads of Divisions and Group Directors of BARC has brought the programme to the present operational status.

Administrative guidance from Controller and IFA, BARC and financial management support from Accounts Division of BARC has smoothened operation of this programme and enable faster implementation.

PRESENT PROGRAM STATUS

Three AKRUTI nodes are set up in Maharashtra State (MS) financed by Rajiv Gandhi Science and Technology Commission (RGSTC), Maharashtra in collaboration with three NGOs viz. CARD, PARIVARTAN and NIRMITEE as follows:

1. 'AKRUTI-NIRMITEE' - by NIRMITEE at Uddhar, Dist. Raigad, MS
2. 'AKRUTI-PARIVARTAN' - by PARIVARTAN at Chiplun, Dist. Ratnagiri, MS
3. 'AKRUTI-CARD' - by Community Action for Rural Development Society (CARD), at Khirala village, Dist. Amravati, MS

In addition, eight more AKRUTI nodes are in operation, one each in Andhra Pradesh (AP), Madhya Pradesh (MP), Karnataka, Assam (NER) and four in Maharashtra as follows :

4. 'NAYUDAMMA's AKRUTI' at Kaviti Mandal, Dist. Srikakulam, AP
5. 'AKRUTI' by Fresh-O-Veg Krishak Club at Indore, MP
6. AKRUTI-YMC by Yusuf Meherally Centre, Tara Village, Dist. Raigad, MS
7. AKRUTI-ANKUR by Ankur Pratishthan and Sanshodhan Sanstha, at Ambajogai, Dist. Beed, MS
8. 'AKRUTI' by Vivekanand Ashram at Hiwara Bk, Tal. Mehkar, Dist. Buldhana, MS
9. 'AKRUTI' by Loknayak Jayaprakash Narayan Leprosy Eradication Trust at Vasai East, Dist. Thane, MS
10. 'AKRUTI' by Malenadu Education & Rural Development Society at Sirsi, Dist. Uttara Kannada, Karnataka
11. 'AKRUTI' by Shanti Sadhana Ashram (SSA) at Basistha, Guwahati, Dist. Assam, NER

First five AKRUTIs are functional since two years. Out of which AKRUTI-PARIVARTAN and AKRUTI-NIRMITEE were inaugurated by Dr. Anil Kakodkar, then Chairman, AEC and Secretary, DAE on 8th June 2008 at Chiplun and Dr, Srikumar Banerjee, then Director, BARC, on 1st Nov. 2008 at Sudhagad near Pali, respectively. At AKRUTI-PARIVARTAN electricity generation was demonstrated by connecting 10kW, biogas generator to Nisargaruna Biogas plant, whereas at AKRUTI-NIRMITEE, during the inauguration function, public address system, lighting and electrical equipments were run on the electricity generated through NISARGRUNA plant.

On the advise and guidance of Dr. R. Chidambaram, Principal Scientific Advisor to Government of India, (PSA to GoI), umbrella MoU has been signed on 10th Oct. 2008 between Bhabha Atomic Research Centre, Mumbai and Office of the PSA to GoI, New Delhi for delivering technologies through Rural Technology Action Group (RuTAG) and "AKRUTI" programmes under DAE – societal Initiative. Under this framework, `Rural Technology Delivery Centres – RTDCs will be set up jointly by different RuTAGs, BARC and local technically oriented NGO and technologies will be delivered to villages through `AKRUTI-KRUTIK-FORCE' format via RTDCs.

Federation of Farmers Associations (FFAs), Andhra Pradesh has submitted Project Proposal called 'SAMARPAN' to Rajiv Gandhi Foundation, Delhi to set up AKRUTIs in Andhra State for deployment of BARC-DAE and Department of Space (DoS) technologies. Number of technically oriented NGOs from all over the country are in contact with BARC to set up AKRUTI nodes in their respective areas.

TECHNOLOGY DEPLOYMENT ACTIVITIES IN AKRUTI NODES

Three NISARGRUNA plants in AKRUTI nodes of Maharashtra are running successfully. Demonstration experiments with Foldable Solar Dryer, Domestic Water Purifier, Soil Organic Carbon Testing Kit and SHRI Sludge utilization are carried out in different villages and fields. New seed varieties of BARC have been sown third time in more than 100 locations around these AKRUTI nodes through KRUTIKs amongst the villagers and farmers in the surrounding villages. Laboratory training in tissue culture technology for village farmers as an `AKRUTI TRAINEE' in BARC has also been initiated. CARD, Amravati is the first beneficiary of this programme.Banana Tissue Culture Lab set up at AKRUTI-CARD,Anjangaon Surji,Dist Amravati is functional. Water filters (without electricity) to meet the village need of clean bacteria free drinking water are being assembled in all three AKRUTIs of Maharashtra and Foldable Solar Dryers are fabricated in AKRUTIs.AKRUTI-NIRMITEE at Pali has set up Integrated Fruit Processing unit.AKRUTI-PARIVARTAN has deployed field trial unit for Brackish Water RO in village.

AKRUTI node at Indore, MP has reported average 19% increase in the yield for TAG-41 BARC groundnut variety as compared to local seeds. This is based on the production of 76.07 quintals from 4.2 quintals of sowed TAG-41 seeds in eight different fields of four villages viz. Datoda, Badiya, Nirmar Khadi and Sulgaon.

Investigations for underground water based on Isotope hydrology have been initiated in 'AKRUTI-CARD' at Amravati and 'AKRUTI-ANKUR' at Beed District. Some of the activity photographs at different AKRUTI nodes are enclosed herewith.

Field data collection, documentation and database generation of technologies deployed in the field has started. These AKRUTI nodes in different regions have created a good network of information and data exchange and feedback on technology deployment. The regular collection of crop databases over few years could form the strong basis for crop insurance for future, providing safety network and protecting farmers from uncertainties of nature.

WHO CAN PARTICIPATE

- Technically oriented NGOs engaged in S&T based rural activities who can manage HR, finance and required resources for deployment of BARC technologies.
- Financial institutes, Banks, social organisations like Lions Club, Rotary Club and Religious Trusts may also participate by providing financial support to above NGOs.
- Big Business-Houses and Corporates through their CSR (Corporate Social Responsibility) schemes can also participate in this programme for progress of rural sector - the future markets.
- State and Central government departments having schemes for rural development based on S&T work programmes deployed through rural organisations with financial support can utilize this S&T based AKRUTI work plan with technologies.

MARKET SUPPORT FOR FUTURE GROWTH

Presently, the agri-produce and other related products produced through this programme by various FORCE groups, will be utilizing the existing infrastructure for distribution, marketing and financing schemes, which have been already formulated by various ministries, departments, banks, PSUs & other organisations. Commodity exchanges and associated organisations like National Bulk Handling Corporation (NBHC) can play a vital role in taking these products to market place and provide right valuation to the efforts of village communities in particular to the farmers on expansion of this programme in future. *BARC has signed MoU with SBI, NBHC and farmer's co-operative to create appropriate support schemes for this programme of "AKRUTI – KRUTIK – FORCE" on its large scale spread.*

AKRUTI TECH PACK

In order to encourage locals from rural areas and also urban entrepreneurs to start AKRUTI activity in rural sector a Technology Package named `AKRUTI Tech Pack' is offered at an affordable price. `AKRUTI Tech Pack' consists of following

Technologies

1. Foldable Solar Dryer (FSD)
2. Vibro Thermal Disinfestor (VTD)
3. Soil Organic Carbon Detection & Testing Kit (SOCDTK)
4. NISARGRUNA (Bio-gas plant based on biodegradable waste)

Domestic Water Purifier (DWP) a water filter technology for bacteria free clean drinking water without electricity will be offered **additionally to the above as option.** For increasing the rural awareness of benefits of radiation processing, consultancy service for irradiation of agri produce on trial basis without charges to AKRUTI Tech Pack holders will be provided. Women Entrepreneurs are provided additional incentives.

SUMMARY

The basic need of opportunities for innovation, work and entrepreneurship for the rural areas can be accomplished by canalising modern indigenous know-how and technologies through this structured program "AKRUTI-KRUTIK-FORCE" with the existing financial support in the initial stage. This will enable the villagers to deploy and make use of the technologies with local adaptation for themselves, which itself will generate village entrepreneurship and make this activity self-sustaining and wide spread. In-turn, it will create a strong, wide spread network for embedded innovative S&T culture in rural areas.

Know-How, like a dormant bacteria waiting for a right climate to become active, **Exists In The Country.** AKRUTI-KRUTIK-FORCE can work like a catalyst to speed up deployment, use and spread of NPAs & spin-offs. Thus, BARC-DAE technologies in AKRUTI node, deployed by KRUTIK through villagers amongst FORCE groups will create `People Centred Research & Extension for Assured Livelihood of the rural sector. **Livelihood security of the rural sector will ensure the food security of the nation.**

Subject: Request for becoming Member of Scientific Advisory Committee of International Conference **"Techno-Societal 2016: International Conference on Advanced Technologies for Societal Applications"**

Respected Sir,
In the year 2011, after signing the MoU with Bhabha Atomic Research Centre (BARC), Mumbai for techno-societal activities, we are conducting various activities viz. a) Establishment of Rural Human and Resource Development facility for deployment of BARC technologies and development of new technologies to benefit the surrounding rural communities. b) ICT Enabled School Education for connecting five schools to NKN high speed (1-GBPS) internet connectivity for school contents delivery. c) Theme Meeting to Discuss Technologies in Service of Rural India with the help of BARC where in last two meetings more than 100 faculty members participated from more than 40 Institutes of Maharashtra and these faculty members were guided by professors and researchers from IITs, IISc, BARC etc. d) Agro-Challenge where students from Engineering Institutes are challenged to develop technologies for societal applications where every year more than 70 entries are reported from all over Maharashtra. Sir, some these activities have been witnessed by you during your last visit to our Institute.
With reference to above background, we have decided to involve International Community working in the similar fields to such techno-societal activities by organizing **an International Conference "Techno-Societal 2016: International Conference on Advanced Technologies for Societal Applications" during 20-21 December 2016 at Our Institute.** This conference offers a multidisciplinary platform for researchers from broad range of disciplines of Science, Engineering and Technology for reporting innovations at different levels. The key motivation for developing these technologies should be to bring change in the society. These technologies may be for betterment of differently abled people, Environment friendly, Livelihood, Rural Employment, Agricultural, Healthcare, Energy, Transport, Sanitation, water, Education, etc. Technology development should have holistic approach by considering various issues such as simplified process, employment generation, environmental friendly, deployment process, propagation approach and business models for sustenance. Patron of the Conference are, the great Indian Scientist PadmaVibhushan Dr. Anil Kakodkar and Chairman, All India Council for TechnicalEducation (AICTE), Prof. Anil D. Sahasrabudhe.

Sir, through this conference, we expect to encourage researchers to participate in societal development activity through Engineering and Technology. I would like to request you to join as a member of Scientific Advisory Committee for organizing this conference and guide us further.

Thank you,

Yours sincerely,

(Dr. Prashant M. Pawar)
Coordinator, Techno-Societal 2016

Techno-Societal 2016

International Conference on Advanced Technologies for Societal Applications

20-21 December 2016

Background of Conference

Bhabha Atomic Research Centre (BARC), Mumbai decided to bring the faculty members of various engineering colleges together to solve the regional relevant problems under the guidance of eminent researchers from various reputed organisations.

BARC, Mumbai had organised first theme meeting in 2012 to share their experience of collaborative research and product development to explore the use of advanced technology in service of rural India. The second meeting was also encouraging to involve various faculty members of engineering colleges, which held at Walchand College of Engineering, Sangli. The purpose of these theme meetings was to provide platform & encouragement to engineering college faculty for research in collaboration with Professors from reputed Indian Institutes IITs, IISc and research labs and motivate them to perceive the Regional Relevant Research.

The third and fourth theme meetings were held at Shri Vital Education and Research Institute (SVERI), Pandharpur in 2014 and 2015 where more than 125 participants from more than 40 Engineering Colleges in Maharashtra participated in these theme meeting. A parallel session for farmers were also organised to have interactions of heads of engineering institutes to understand their problems.

This conference offers a multidisciplinary platform for researchers from broad range of disciplines of Science, Engineering and Technology for reporting innovations at different levels. The key motivation for developing these technologies should be to bring change in the society. These technologies may be for betterment of differently abled people, Environment friendly, Livelihood, Rural Employment, Agricultural, Healthcare, Energy, Transport, Sanitation, water, Education, etc. Technology development should have holistic approach by considering various issues such as simplified process, employment generation, environmental friendly, deployment process, propagation approach and business models for sustenance.

This conference will also help innovators to share their best practices or products developed to solve local problem which may help the other researcher to take inspiration to solve problems in their region by doing certain modifications. On the other hand, this conference may help to apply the technologies developed to solve the problems of various regions posed by researchers in the section of needs identified. This back and forth process for local-global interaction will help in solving local problem by global approach and help in solving global problem by improving local conditions.

Tentative Topics in Techno-Societal-2016

- Advanced Technologies for Water, Energy, Transportation, Housing and Sanitation
- Mechatronics, Micro-Nano Related for Bio and Societal Applications
- Chemical and Physical Processes
- Commercially Successful Rural and Agricultural Technologies
- Deployable Environment or Health Care Technologies
- Holistic Approach for Sustainable Technologies
- ICT based Societal Technologies
- Lab-Level Advanced Societal Technologies
- Sensor, Image and Data driven Societal Technologies
- Technologies for Rural and Agricultural Employment Generation
- Manufacturing and Fabrication Processes for Societal Applications

Why Techno-Societal-2016

- Opportunity for changing Society through Technology
- Demonstration of Developed technology to Right Audience
- Rural Location of Conference, to get real input
- Existing SVERI-Societal model may Inspire
- Interaction with multi-disciplinary Scientific Community
- Chance to get Published in Relevant Journals
- Exposure to funding agencies
- Spiritual Connect of Pandharpur and Agri-connect of Rural Pandharpur

Who and How ?

Scientific Community who has developed some products, processes or theoretical application to solve any societal problems.

About these proceedings

Introduction

This volume originates from the proceedings of a multidisciplinary conference, Techno-Societal 2016 in Maharashtra, India, that brings together faculty members of various engineering colleges to solve Indian regional relevant problems under the guidance of eminent researchers from various reputed organizations.

The focus is on technologies that help develop and improve society, in particular on issues such as the betterment of differently abled people, environment impact, livelihood, rural employment, agriculture, healthcare, energy, transport, sanitation, water, education.

This conference aims to help innovators to share their best practices or products developed to solve specific local problems which in turn may help the other researchers to take inspiration to solve problems in their region. On the other hand, technologies proposed by expert researchers may find applications in different regions. This back and forth process for local-global interaction will help in solving local problems by global approach and help in solving global problems by improving local conditions.

Subject: Request for performing collaborative experimental work using Radio Isotope facility at BARC, Mumbai.

Respected sir,

My doctorate student Ms. Vidyarani S. Kshirsagar has been working on design modification of biogas digester. We have theoretically designed the biogas models and have performed CFD simulation and design optimization studies as a part of her Ph. D. problem.

When we were exploring the possibility of performing experimentation on modified plant models, we came across the Radio-Isotope based solution to obtain the velocity patterns to compare it with CFD results.

We have initiated the discussion with Dr. H. J. Pant and explained him the requirements for the experiments. He has appreciated the idea and shown keen interest for such experiments.

Therefore I would like to request you to help us in this collaborative experiments and give consent to perform experiment in your laboratory.

Regards,

Dr. Prashant M. Pawar

Respected Sarma sir,

As per discussion with Mule madam and Pant sir, I am sending you a formal request for allowing a radio isotope based biogas experimentation for improving the design of biogas plant. The other details are given in the attached letter. Kindly grant permission for the same which will help my PhD student Ms. Vidyarani Kashirsagar.

Regards

Good morning sir
I am Ms. Vidya Kshirsagar working as Assistant Professor in SVERI's College of Engineering Pandharpur and pursuing Ph. D. would like to visit BARC on 21st March 2018(Tuesday) to perform the experiment by using Radio-isotope technique.
For the same I have to stay for 2 to 4 days in BARC. So, I request you to help me to make the hault arrangement in BARC guest house.

Thank you sir

Dear Ms. Vidyarani,
Thanks for your mail. You are welcome to visit BARC, Mumbai with your experimental setups for conducting the radiotracer experiments. Your entry permit and accommodation in our guest house has been arranged from March 20-23, 2018. Please report at BARC north gate on March 20, 2018 at 9.30 AM. My colleague Shri J.Samantray will meet you at north gate and escort to my office.

Dear All,
Kindly find attached notice of interactive session with Mr. D. Venkateswarlu , Regional Director, BARC, Dept. of Atomic Energy, Govt. of India, Visakhapatnam, Andhra Pradesh.

The session is mandatory for all Deans, Hods, and staff members who are Ph.D qualified and those pursuing Ph.D.

HoDs should ensure that all free staff members during the said period should attend the session.

REMINDER: Kindly arrange to send the report of NPTEL FDP registration of respective departments.

Regards,
