### Brief Report (not exceeding 4000 characters – please use Arial 11 point font)

A one day seminar sponsored by Institution of Engineers (India), Solapur Local Center was organized on 16<sup>th</sup> August 2015 in SVERI's College of Engineering, Pandharpur on the topic “Hands on Experience on Soft Lithography”. Hands on sessions were arranged as a part of this seminar on different activities related to Soft Lithography. The seminar was organized with an agenda of giving exposure to the activities in this area, which are being carried out in SVERI's College of Engineering in collaboration with BARC Mumbai, RRCAT Indore etc. The target audience of the seminar was the faculty of other Engineering Institutes of Maharashtra with an aim of promoting the research activities related to Soft Lithography in their respective colleges. The seminar was conducted in two sessions. In morning session, speeches of eminent personalities were arranged related to present research activities in Soft Lithography. Hands-on-experience sessions were conducted in the afternoon session. 71 participants from various Engineering Institutes attended the seminar.

The program started with inauguration ceremony followed by the Product launching of “Micro-Fluidica Demo Kit” with the auspicious hands of Chief Guest, Dr. R. Balasubramaniam, an Eminent Scientist at Precision Engineering Division of BARC, Mumbai and Prof. Nadgauda, an eminent academician and President of Institution of Engineers (India) Solapur Local Center. Micro-Fluidica Demonstration kit, developed by Research and Development Department of SVERI's College of Engineering, will help Engineering Institutes to demonstrate micro-fluidic phenomenon to undergraduate and post-graduate students. As a keynote speaker Dr. R. Balasubramaniam guided the participants regarding Research Activities in the field of Micro domain and gave guidelines regarding how to initiate new research activities in this field. Dr. P. S .Kachare, Head of

Mechanical Engineering Department of SVERI's college of Engineering also graced the Dias.

Dr. Prashant M. Pawar, a Post-Doc personality from Konkun University in Seoul of South Korea and present Dean R&D of SVERI's College of Engineering, then briefed about the research facilities developed and available at SVERI. Prof. N. D. Misal, Director in SVERI's College of Engineering (Polytechnic), who developed the setups for non-conventional machining at SVERI, shared his view and experience in the field for developing Moulds for soft-lithography. Er. Shekhar A. Jeurkar, present Hon. Secretary of Institute of Engineers (India) Solapur Local Center, eminent Academician and Metallurgical Consultant, then guided the participants regarding additive approach through 3-D printing followed by a lunch break.

In the afternoon, Hand-on Sessions were arranged on Photo Chemical Machining, PDMS Microstructure Fabrication, Microstructure Characterization and Microfluidic simulations for the participants in four different laboratories of SVERI. Prof. Misal and Prof. Wangikar guided the participants in the photochemical Machining Activity. Er. R. B. Kapurkar and Prof. R. R. Gidde demonstrated the participants about the fabrication of the PDMS Microstructures. Er. Ms. Sarika Hazare and Er. Avinash Parkhe guided the participants regarding characterization procedure of Microstructures using the characterization facilities available at SVERI. Prof. A. B. Shinde and Prof. S. V. Jadhav then demonstrated the use of COMSOL Multiphysics software for the simulations of micro-fluidic problems.

In the Valedictory function, different participants put forward their views about the program, where most of the participants expressed their satisfaction about arrangement of such an event in this region. Certificates were issued to all the participants and the program was concluded with vote of thanks.

### STTP Theme

In this Short Term Training Program, following topics for PG and Ph. D students along with faculty members from various Institutes in the vicinity will be covered. This STTP is Useful for all the Civil Engineers.

1. Quality Control In Civil Engineering Construction.
2. Durability of Civil Engineering Structures.
3. Infrastructures and Constructions
4. Dynamic Analysis of Sustainable Design of RC Structures using Neural Networks.
5. Planning and Management of Water Resources for Sustainability
6. Use of Recycled Aggregate Concrete for Sustainable Infrastructures.

## One Day Workshop on "Introduction to CFD simulations using Open FOAM"

One Day Workshop on "Introduction to CFD simulations using Open FOAM" Was organized by Mechanical Engineering Department on 29th March 2016. Prof. S. Yadav was keynote speaker for the workshop. He is pursuing his Ph. D. from IIT Guwahati. Prof. S. R. Gavali, Dean, Student was Convener and Dr. P. M. Pawar, Dean R & D was the Chair person for the Workshop. All Mechanical Engineering Faculty members were beneficiaries of that workshop. Computational Fluid Dynamics (CFD) is important area with respect to designing and certification of Spacecrafts, Aeroplanes, Automobiles and Bikes. There are plenty of commercial CFD software in market but all are expensive ones. Open FOAM is open source CFD software anyone can have it without spending a penny. Prof. Yadav has explained in detail functioning of the Open FOAM software. He had explained about uses of this software to capture Fluid flow activities in Micro-channel. As in our college, Micro-channels related work is going on. This Workshop enhanced knowledge of our faculty in the field of CFD.

## Faculty Development Program on Hands on Experience on AUTOCAD

Computer aided design and drafting is very essential in the process of teaching-learning and research. In Mechanical and Civil engineering, AutoCAD is widely used software for 2D and 3D wireframe model drafting. Through the motivation of Head of the department Dr. P. S. Kachare, and under the guidance of Prof. S. J. Shinde, FDP of Hands on Experience on AutoCAD" was successfully organized in the department from 09<sup>th</sup> May to 14<sup>th</sup> May 2016. All faculty members of mechanical Engineering department participated in the same.

### Eligibility

The participants must be a regular / visiting faculty in Engineering Degree College / Polytechnic. They must have at least B.Tech degree in Civil Engineering / Construction Technology / Infrastructural Engineering or equivalent. They should be teaching in Civil Engineering or allied departments, where subjects such as Structural Analysis, Reinforced Concrete design and Steel Structural design are taught.

### Who may benefit

The workshop is likely to benefit regular/visiting faculty colleagues who are teaching subjects like Structural Analysis, Reinforced Concrete design and Design of Steel structures.

### Note

Please note that this ISTE STTP is conducted under the CEP IIT Kharagpur. Live recording of the course and other created contents will be released under Open Source through a portal. The recorded CD/DVD of the course lectures will be available for distribution, at cost, to any individual or institution. All participants are required to sign an undertaking for such release of contents contributed by them during and after the STTP. The recognisance and citation will naturally be made for all circumstances.

### Course Fee

Since the workshop is funded by the National Mission on Education through ICT (MHRD, Government of India), there is no course fee for participants.

### Accommodation

Remote Centers are being selected to provide breakfast on each day of the workshop, and for accommodation, wherever available, for a limited number of out-of-state participants. Travel expenses up to Rs. 1000/- one way and one-time will be reimbursed against proof of actual expenditure, for participants beyond a distance of 100 Km from the Remote Centre.

### How to Apply

Those wishing to attend this course should register online <http://www.iste.iitkgp.ac.in/structuremain.php>  
Online registration opens on: 28<sup>th</sup> October, 2015

Subject: Invitation as a speaker for five days STTP on "Utilization of scientific Techniques of Water Resource Engineering to Jalyukt Shivar Abhiyan" (5<sup>th</sup> - 9<sup>th</sup> Dec 2017)

Respected Sir,

We are organizing a five days STTP on "Utilization of scientific Techniques of Water Resource Engineering to Jalyukt Shivar Abhiyan" (5<sup>th</sup> - 9<sup>th</sup> Dec 2017). Through this STTP, we are planning to provide training of techniques of Water Resources Engineering related Jalyukt Shivar Abhiyan to the faculty members of various engineering and polytechnic colleges.

With immense pleasure, we would like to invite you as a resource person for the event. Please accept our invitation and guide our faculty members on above mentioned topic. We are sure that your guiding words will give dynamic energy in the endeavor of developmental process of our faculties to shape the students.

Thanking you,

### **ABOUT PANDHARPUR**

Pandharpur is well-known holy place where Lord Shri Vitthal temple is located on the bank of the river Chandrabhaga where large number of devotees visits frequently. It is recognized Spiritual capital of Maharashtra and popularly known as 'South Kashi' of India.

### **ABOUT SVERI'S COE**

SVERI, a Charitable Trust, embarked on its first ambitious project and established Engineering College at Pandharpur with approval from All India Council for Technical Education (AICTE), New Delhi and Government of Maharashtra. The Engineering College is an A grade institution An ISO 9001:2008 certified Institution and is accredited by the Institution of Engineers (India), Kolkata. College is second time accredited by National Board of Accreditation (NBA) (All the UG programs are NBA Accredited upto JUNE 2020). To continue with developmental process, SVERI has started B. Pharmacy and D. Pharmacy courses from the academic year 2006-07 and Diploma in Engineering (Polytechnic) from the academic year 2008-09. At present, SVERI has focused its activities in rural area and as on today these Professional Colleges under its umbrella providing education to around 4000 students in its Gopalpur Campus. SVERI, College of Engineering has four UG, four PG and three doctorate labs under Solapur University, Solapur. Institute faculty members are actively involved in research activities funded by AICTE, DST, AR&DB, BARC, RGSTC, and also collaborative research activities with industry and research organization like BARC, RRCAT, CDAC, MKCL, IIT Bombay, etc.

### **ABOUT DEPARTMENT**

The Department of Civil Engineering with its multifaceted faculties maintains and cultivates its strong link with the infrastructural industry, academic and research institution. The faculty of department continues to strive excellence by exploring new frontiers of knowledge imparting the latest technical knowledge to the students.

**VISION:** To provide excellence in education, research, public service with necessary knowledge, skills and personality.

**MISSION:** To Promote quality education and research and to encourage student to pursue higher education.

**Subject:-** Invitation as a Speaker for national level six days AICTE-ISTE sponsored induction/refresher programme On "Advanced Structural Dynamic Analysis and Its Applications to Civil Engineering" (04<sup>th</sup> -09<sup>th</sup> June, 2018).

Respected sir,

We are organizing a national level six days AICTE-ISTE sponsored induction/refresher programme On "Advanced Structural Dynamic Analysis and Its Applications to Civil Engineering" (04<sup>th</sup> -09<sup>th</sup> June, 2018). In this workshop the participants are expected to learn fundamentals of dynamic analysis based design philosophies, design of structures under earthquake or wind loading and some of the advanced topics in dynamic analysis based civil engineering problems.

I would like to request you to accept our invitation as speaker and communicate your convenient dates along with tentative topics of the talk.

I would also like to request you to send the PPT & other relevant material required for making booklet which will be provided to the participants. Also send your travel and accommodation related requirements.

Thanking You,

### Report of One-Day Seminar/Workshop

Department of Mechanical Engineering, SVERI's College of Engineering, Pandharpur with collaboration of Institution of Engineers (India) Solapur local centre (IEI-SLC) organized a One Day Workshop on "**Hand-on Advanced Manufacturing Processes**" on 15<sup>th</sup> October 2017 at SVERI's College of Engineering, Pandharpur. For this workshop total number of participants registered was 40 from Solapur district.

The Workshop was inaugurated by Dr. Dinesh Singh G. Thakur from Defense Institute of Advanced Technology, Pune

The inaugural Function was graced by the Presence of Dr. A. A. Utpat (Dean Admission) Dr. P. S. Kachare (Head, Mech. Engg. Dept.) Dr. D. G. Thakur (DAIT, Pune), Prof. S. N. Kulkarni (Vice-Principal SVERI COE), Prof. N. D. Misal (Principal SVERI COE (Poly)), Dr. P. M. Pawar (Dean R & D and Academics), Prof. S. R. Gavali (Dean Students). Mr. Y. M. Khedkar (Assist. Prof. in Mech. Engg. Dept) introduced about the Chief Guest Dr. Dinesh Singh G. Thakur Dr. P. M. Pawar (Dean R & D and Academics) given the overview of workshop. Mr. Y. M. Khedkar (Assist. Prof. in Mech. Engg. Dept) expressed the vote of thanks of inaugural function.

#### **Session I: Time 11.00 am to 1.00 pm**

Resource person **Dr. D. G. Thakur** (Defense Institute of Advanced Technology, Pune.) discussed about Challenges in Micro Machining. He explained about different ways of Fabrication, need of miniaturization, designer's requirement for components. Also, he briefed about need for Micromachining with different industrial applications followed by Micro fabrication with its different types. He focused on key aspects in Micromachining and machine tools with micromachining capability.

#### **Session II: Time 2.00 pm to 4.00 pm**

The Resource Person Prof. N. D. Misal (Principal SVERI COE (Poly)) discussed about Photochemical Machining. He explained briefly about key parameters in photochemical machining along with its industrial and business applications.

#### **Session III: Time 4.00 pm to 5.00 pm**

In the third session, the Hands on Advanced Manufacturing Processes like LASER machining, Micro machining and Photochemical Machining has been carried out by Prof. A. K. Parkhe, Prof. R. B. Kapurkar and Prof. S. S. Wangikar respectively.

In the valedictory function participants expressed their experiences regarding the different sessions & also about the overall workshop. Certificates were distributed to the participants by resource persons. Dr. A. A. Utpat (Dean Admission) proposed the vote of thanks & the programme was concluded.

## One week STTP on “Introduction to CFD and its Applications

Mechanical Engineering Department of SVERI's College of Engineering along with Fluidyn Consultancy Pvt. Ltd., Bangalore had organized one week STTP on “Introduction to CFD and its Applications” from 12<sup>th</sup> June 2017 to 17<sup>th</sup> June 2017 at SVERI's College of Engineering, Pandharpur. For this STTP total number of participant participated from various Industries, educational/research institutions was Forty Six (46) from all over Maharashtra.

The main objective of the programme was to provide a golden opportunity of learning CFD and Multi-Physics for participants. During this programme participants got exposure to Fluidyn MP Capabilities, Importance of Multiphysics software in various industrial sectors, Formulation of undergraduate/ post graduate and consultancy projects using the software, basic methodology of Heat transfer modeling & Structural Modeling. During the programme the focus was also given for hands on experience on Fluidyn MP-CFD analysis, Fluidyn MP-CHT analysis, Fluidyn MP-FSI analysis.

### MAJOR TOPICS

- Overview of machine learning, Supervised and unsupervised learning, Artificial Neural Networks, Feedforward Neural networks, Gradient Descent and the back propagation algorithms, Regularization and Optimization. **Practice Session:** Introduction to Python Programming, Tensorflow and Keras, Making a Neural Network, training and testing, Saving the best weights and model
- Convolutional Neural Network (CNN), convolution/Pooling layers, Activation maps, CNN as a feature extractor, Some Standard CNN architectures like AlexNet, VGGNet, GoogLeNet, ResNet and more recent networks
- Autoencoders (AEs), Undercomplete and Overcomplete AE, Convolutional AE, Regularization, Sparsely regulated AEs, Denoising and Stacked AE, Generative Adversarial Networks (GAN), Variants of GAN. **Practice Session:** Using pretrained models, Transfer learning, Applying GoogLeNet and ResNet for specific problems. Using Autoencoders.
- Brief Introduction to Recurrent Neural Networks, LSTM, GRU and their applications in machine translation, language modelling and sentiment classification. **Practice Session:** Building an AI application for sentiment classification from travel/hotel website user feedback data.
- Object detection algorithms, R-CNN, Faster R-CNN, YOLO and SSD. Hands on- Object detection. **Practice Session:** Installing Darknet framework on your laptop, how to use YOLO for object detection.

#### MAJOR TOPICS

- **Intro and text classification:** Processing Text using Perl Use of Regular Expressions, Elements of Morphology, Character N-gram Based Text Mining, Text Classification.
- **Language modeling and sequence tagging:** Texts as sequences of words, language modeling and use for suggests in search, machine translation, chat-bots, etc., predict a sequence of tags for a sequence of words, part-of-speech tags, named entities or any other tags, Probabilistic Modeling, N-grams Model, HMM Model, Sum-product Algorithms
- **Vector Space Models of Semantics:** Higher abstraction for texts: vectors representing meanings traditional models of distributional semantics, cover modern tools for word and sentence embeddings, such as word2vec, FastText, StarSpace
- **Syntactic Processing:** Phrase Structure and Natural Language Syntax, Chart Parsing and CYK Algorithm, Probabilistic Context-Free Grammars
- **Sequence of sequence tasks:** a sequence to sequence task: machine translation, summarization, question answering, a general encoder-decoder-attention architecture
- **Dialog Systems:** task-oriented dialog systems like Apple Siri or Amazon Alexa, main building blocks of such systems namely Natural Language Understanding (NLU) and Dialog Manager (DM)
- **Unification-based NLP and Semantics:** First-order Predicate Logic and Resolution • Classical and Feature-structure Unification • Unification-based Grammars

## FDP Report

- **Name of FDP:** Python Programming on Industry Perspective
- **Date:** 2<sup>nd</sup> - 6<sup>th</sup> December 2019
- **No. of Participants:** 63
- **Brief report:** Department of CSE has organized five days faculty development program on "Python Programming with Industry Perspective", from 2 to 6 December 2019. The FDP was sponsored by IIIT D. M. Jabalpur. For this FDP, total 63 faculties were participated from different institutes. Dr. Gaurav Trivedi (IIT Guwahati), Prof. Vineet Sahula (MNIT Jaipur), Dip Prakash Samajdar (IIITDM Jabalpur), Dr. Menka Yadav (MNIT Jaipur), Dr. Bal Chand Nagar & Mr. Pankaj Kumar (NIT Patna) were resource person. This FDP was conducted in collaboration with IIITDM, Jabalpur. E&ICT Academy and funded by Ministry of Electronics and IT, Government of India.

#### MAJOR TOPICS

- Brief introduction RISC-VISA
- Overview of RISC-V based micro-processor And its related SoC
- Overview of QFN48 package, pads, macros and memory in MAGIC
- Idea of chip-planning, aspect ratio, utilization factor, power planning, decoupling capacitor, pads/memory and macro placement
- Introduction to lab to create floorplan for small design
- System-on-Chip (SoC) planning and design concepts overview, Physical design overview
- Standard cells library overview
- Art of layout - Stick diagram + Euler's path using MAGIC
- Characterization of important parameters using ngSPICE
- Introduction to 16-Mask CMOS process and its significance to chip design flow
- Logic synthesis and high fan out net synthesis interactive tutorial using Yosys open source synthesis tool
- Introduction to static timing analysis and the related industry standard reporting formats
- Pre-layout timing analysis of a design using open source STA tool, which includes setup timing analysis for reg2reg and IO
- Introduction to clock tree synthesis (CTS) and its related checks viz. skew, latency, pulse-width, duty cycle
- Placement/Routing/CTS of a design using qflow open source RTL2GDS tool, Perform CTS quality and routing quality checks.
- Post-layout timing analysis using OpenSTA and engineering change order (ECO) using Tritonizer, Full chip integration using MAGIC.

### A Brief Report on

### AICTE sponsored one Week Short Term Training Program (STTP)

**Event Details:** AICTE sponsored one Week Short Term Training Program (STTP) on  
"Blockchain in DevOps: Implementing Transparent Continuous Delivery".

### AICTE References

1. AICTE STTP Sanction letter reference number: Ref. No. 34-65/8/RIFD/STTP/Policy-1/2018-19
2. Revised letter Eg1-information of AICTE approved institutes which have received grants for conducting STTPs/FDPs under AQIS 2018-19 on 25<sup>th</sup> June 2020.

### Mode

STTP conducted online mode through Google meet in three (03) Slots.

### Objectives

1. To develop the research based activities in DevOps & Blockchain to address gaps recognized through the project based learning.
2. To provide better understanding of the function of Blockchain & DevOps as a method of securing distributed ledgers ,how consensus on their contents is achieved, and the new applications that they enable
3. It covers the technological underpinnings of Blockchain operations as distributed data structures and decision making systems, their functionality and different architecture types.
4. To Understand SDLC with DevOps.
5. It provides a critical evaluation of existing "smart contract" capabilities and platforms, and examines their future directions, opportunities, risks and challenges.

Almost uniformly all of them are finding it difficult to delegate duties. At present, Segregation of Duties (SoD) policies are one of the key obstacles to faster transformation. Due to blockchain's intrinsic traits, Bi-modal DevOps processes implemented on a blockchain will inherently enable a transparent SoD compliance, increasing an organization's delivery efficiency and agility.</p> <p>Blockchain - a peer to peer network that sits on top of a internet - was introduced in October 2008 as part of a proposal for Bitcoin. DevOps is a culture that emphasizes collaboration and communication between Development and operations team. This would make software delivery more transparent, which would in turn improve software quality and reliability. Application delivery issues and information about software problems could be viewed instantly by anyone over the blockchain, providing a much greater deal of visibility into the continuous delivery process.</p> <p><b>Objectives:</b></p> <ol style="list-style-type: none"> <li>1. ### ABOUT US

Shri Vithal Education and Research Institute, a charitable trust, embarked on its first ambitious project and established an Engineering College at Pandharpur with the approval from AICTE, New Delhi and Government of Maharashtra. The engineering College is an A grade institution and accredited by NBA, an ISO certified institution and is accredited by Institution of Engineers (India), Kolkata.

To continue with the development process, SVERI has started B-Pharmacy and D-Pharmacy courses from the academic year 2006-07 and College of Engineering Polytechnic from the academic year 2008-09. SVERI's College of Pharmacy & Polytechnic is accredited by NBA in year 2019-20.

#### Salient Features

- Tradition of maintaining excellent results with many University rank holders.
- Enterprising faculty members with doctorate and master degree.
- Excellent Academic discipline and regular interaction with Parents.
- Financial support is given to students (Earn and Learn Scheme)
- SVERI campus is with NBN facility.
- Digital library with eBooks and e-journals from IEEE and ASME.
- College has 90+ percentage of placement in reputed companies.

### ABOUT DEPARTMENT:

Computer Science and Engineering Department is well equipped with high speed computers with latest operating system such as Windows, Ubuntu. Department has 7 labs along with 300+ computers and all the laboratories are connected with high speed LAN having 1GBps leased line for uninterrupted internet facility. The HP and Dell Power Edge server with Xeon Processor and hot swap SCSI drive servers are available for different type of online and offline services. CSE department has 95+ percentage of Placement record for last academic year.

Along with all the required facilities, we have also made available the major software's such as Oracle, MS SQL Server, Visual Studio.NET, Novell Netware. Our Department Library includes various manuals and special books on computer science, and latest GATE books which helps students and faculties for day-to-day referencing.

CATIA is very essential in the process of teaching-learning and research. In Mechanical and Civil engineering, CATIA is widely used software for 2D and 3D wireframe model drafting. Through the motivation of Head of the department Dr. S. A. Sonawane, and under the guidance of Prof. C. C. Jadhav, "Six Days Training on CATIA" was successfully organized in the department from 16<sup>th</sup> December to 21<sup>st</sup> December 2019. All faculty members of mechanical Engineering department participated in the same.

## One-Page Report of Online FDP

### "Research Opportunities and Challenges in Manufacturing Sector"

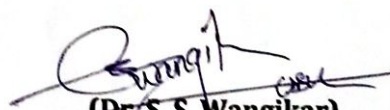

Brief Details about the Programme.

Department of Mechanical Engineering, SVERI's College of Engineering, Pandharpur Organized a One Week online FDP on "Research opportunities and chanenges in manufacturing sector" on 01 June 2020 to 06 June 2020 at SVERI's College of Engineering, Pandharpur. For this FDP total number of participants registered was 110 from Solapur district.

The was inaugurated by Dr. Dinesh Singh G. Thakur from Defense Institute of Advanced Technology, Pune The inaugural Function was graced by the Presence of Dr. A. A. Utpat (Dean Admission) Dr. S. S. Wangikar (Head, Mech. Engg. Dept.) Dr. D. G. Thakur (DAIT, Pune). Prof. N. D. Misal (Principal SVERI COE (Poly)), Dr. P. M. Pawar (Dean R &D and Academics). Prof. S. R. Gavali (Dean Students). Mr. Y. M. Khedkar (Assist. Prof. in Mech. Engg. Dept) introduced about the Chief Guest Dr. Dinesh Singh G. Thakur Dr. P. M. Pawar (Dean R & D and Academics) given the overview of workshop. Mr. Y. M. Khedkar (Assist. Prof. in Mech. Engg. Dept) expressed the vote of thanks of inaugural function. Resource person Dr. D. G. Thakur (Defense Institute of Advanced Technology, Pune.) discussed about Research opportunities and chanenges in manufacturing sector. He explained about different ways of Fabrication, need of miniaturization, designer's requirement for components. Also, he briefed about need for Micromachining with different industrial applications followed by Micro fabrication with its different types. He focused on key aspects in Micromachining and machine tools with micromachining capability.

In the valedictory function participants expressed their experiences regarding the differentsessions & also about the overall workshop. Certificates were distributed to the participants and Dr. A. A. Utpat (Dean Admission) proposed the vote of thanks & the programme was concluded.
