

Criteria 4.2.4 :	<i>Percentage per day usage of library by teachers and students (foot falls and login data for online access)</i>
Findings of DVV	1) Provide certified E-copy of the ledger for footfalls for 5 days 2) Provide certified screenshots of the data for the same 5 days of online access 3) Provide library log book entries & data of online access for 5 days (23 Sep. 2019 to 28 Sep. 2019)
Response of HEI	1) Summary table of total visit per day, cumulative footfall through online e-access and physical visit is attached as Appendix-I 2) We are getting month-wise statement for online access of e-Journal service provider about number of user visited their resources. The per day calculation by considering 25 working days in month, for 2 e-resources are given below: IEEE subscription : Number of users in Sept'19 = 817 Number of users/day = $817/25 = 32$ Elsevier subscription : Number of users in Sept'19 = 480 Number of users/day = $480/25 = 19$ E-mail snapshot from respective service provider is attached as Appendix-II 3) Library log book entries & data of online access for 5 days is attached as Appendix-III

Total Item Investigations - The total number of times a content item or information related to a content item was accessed.

Total Item Requests - The total number of times the full text of a content item was downloaded or viewed.

Article Request (NON-Counter) - The number of documents requested from the server.

Page Views - The number of pages viewed on a Web site.

Searches Run - Reports the number of keyword searches performed.

Visits - Represents the number of individual durations of times visitors were on the site accessing a series of pages without 30 minutes of inactivity. A single visitor can account for multiple visits in a single day.

Total Item Investigations - The total number of times a content item or information related to a content item was accessed.

Total Item Requests - The total number of times the full text of a content item was downloaded or viewed.

Article Request (NON-Counter) - The number of documents requested from the server.

Page Views - The number of pages viewed on a Web site.

Searches Run - Reports the number of keyword searches performed.

Visits - Represents the number of individual durations of times visitors were on the site accessing a series of pages without 30 minutes of inactivity. A single visitor can account for multiple visits in a single day.
