Class : BE-B

Everything is good with my class. But I don't like few issues like-

- (i) Few students talk during session.
- (ii) Few students have no manners.
- (iii) Without reason they laugh.

But still in last 2 days, students were reced very sincerely. I am very much happy with that.

Students awareness is good about the programming languages.

Students have promise with me they will respect from next time. So kindly watch them.

Students are keen to understand the concept, few of them are quite good & well behave.

Staff are very helpful and College Students have potential to achieve. One thing I have noticed that they need more training on practical compare to theory.

Students need to motivate although they are good listener but coming to confidence level they need to motivate. I wish them all the best for their future.
