Request Letter to Gopalpur Grampanchayat for using our college vehicles for collecting garbage

The increasing amount of domestic waste generated in rural households across India has become a serious concern. Although the majority of solid waste produced in rural areas is organic and biodegradable, the lack of proper segregation has turned it into a major problem, as highlighted by the Ministry of Drinking Water and Sanitation (MDWS), Government of India. Careless littering leads to poor environmental sanitation, contributing to unhealthy living conditions. Therefore, responsible management of domestic waste is essential. To effectively address this issue, a functional waste management system must be implemented. In a step towards managing both solid and liquid waste, the Principal of SVERI's College of Engineering, Pandharpur, sought and received permission from the Sarpanch of Gopalpur Grampanchayat to collect solid waste from several institutions: SVERI's College of Engineering, SVERI's College of Pharmacy, and the Boys' and Girls' Hostels of SVERI, Pandharpur.

A formal letter was submitted to the Gopalpur Grampanchayat to obtain this permission, ensuring that the waste is managed in an organized and environmentally responsible manner.
